Raul,

I have been looking through the files. We have a couple of tweaks to make on 5 of the files, and we will be sending them to Fred Price for amendments. A couple of them may need a second filing, since the pond is bigger than the permit allows. Danielle will let you and Fred know which permits are short.

I am now reviewing water right 55-13829. You didn't send anything in on this water right. This is the one that we have as Project Number 9899 and a picture of the trough marked Three Mile Basin. Supposedly, it is in the SWSW of Section, 10 Township 10 South, Range 5 West.

Do you have any gps files, photos, or maps for this one?

Hello Raul,

We have finished our initial review of the information you sent me for BLM's water rights in Owyhee County. It looks like we are getting pretty close. I am going to go through and put on a couple of finishing touches and make sure everything is good go hopefully next week. We may need to see if we can't get a bit more information on a few of them just to finish things up.

I will be contacting you for any additional information that we may need and on those that are good to go, we will send out the licenses and amendments in the next week or two. We have been told to send the amendments to Fred Price, but we will be copying those emails to you as well. We want to keep you in the loop.
