

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No.

78934

Idaho Water Co - City of Ammon
35-7192A, 35-9069
(0.31 cfs, 121.2 afa, 30.3 ac)

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at <http://www.idwr.idaho.gov/>.

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☒ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☒ ☐ #2a Water Right ownership documentation if Dept. records do not show the transfer applicant as the current water right owner. Additional fee(s) required for water right ownership changes; see fee schedule.
- ☒ ☐ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Additional fee(s) required for water right ownership changes; see fee schedule.
- ☒ ☐ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☒ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm>.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☒ ☐ #9 Other. Please describe: Provide off-setting ESPA impacts. This is Transfer #1 of 3 for ESPA mitigation purposes.

A. PURPOSE OF TRANSFER

1. ☒ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☒ Other Provide off-setting ESPA impacts.
2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**. This transfer seeks to change the place of use for a 30.3 acre portion of combined water rights 35-7192A & 35-9069 for municipal irrigation use within the service area of the City of Ammon water supply system. ESPA impacts are maintained near historical levels through off-setting ESPA impacts. See attached ESPA Analysis for details.

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future: _____

Existing wells, mainlines and flowmeters. _____

- b. Who owns the property at the point(s) of diversion? City of Ammon

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

See attached agreement between Idaho Water Co. & City of Ammon.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

The acres associated with this portion of combined water rights 35-7192A & 35-9069 proposed for transfer will no longer be irrigated at the existing place of use.

- e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

City of Ammon water rights 25-4294, 4295, 4297, 7023, 7168, 7498, 7634, 13964, 14331, 14333, 14380, 14384, 14386 also authorized for diversion from the specific wells identified in this application.

- f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

undergone a period of five or more consecutive years of non-use,

currently leased to the Water Supply Bank,

currently used in a mitigation plan limiting the use of water under the right, or

currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe: These lands were leased and dry from 2003-2010. Extension of time to avoid forfeiture was filed and approved in 2007. Irrigation of the specific acreage proposed for transfer was resumed in 2011.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:

Application for Transfer

ATTACHMENT #7b

AGREEMENT FOR PURCHASE AND SALE OF WATER RIGHTS

THIS AGREEMENT FOR PURCHASE AND SALE OF WATER RIGHTS (this "Agreement") is made and entered into this 28 day of January, 2013 (the "Effective Date"), by and between Idaho Water Company LLC, an Idaho limited liability company, whose address is 1135 Valley Road South, Eden, Idaho 83325 (hereinafter "Seller"), and the City of Ammon, an Idaho municipal corporation, whose address is 2135 South Ammon Road, Ammon, Idaho 83406 (hereinafter "Buyer"). Del Kohtz is a principal of Seller and hereby discloses that he is a licensed real estate agent acting herein as principal for his own account and not representing or acting as an agent for Buyer. Buyer and Seller are individually a "Party" and together the "Parties".

RECITALS:

A. Buyer is a municipal corporation of the State of Idaho which owns a municipal water delivery system, as well as a number of associated water rights.

B. Seller currently has the legal right and option to purchase portions of Water Right Nos. 35-7192A and 35-9069 (the "Water Rights"), which are water rights that were decreed on January 31, 2002 in the Snake River Basin Adjudication by the District Court for the Fifth Judicial District of the State of Idaho. The Water Rights are more fully described in the reports obtained the Idaho Department of Water Resources ("Department" or "IDWR") attached hereto as **Exhibit 1**.

C. Seller desires to sell and Buyer desires to buy a portion of the Water Rights appurtenant to 30.3 acres (27.4 acres of Water Right No. 35-7192A and 2.9 acres of Water Right No. 35-9069) of the irrigated lands within the authorized place of use of the Water Rights.

IN CONSIDERATION of the mutual representations, warranties, and covenants contained herein, the Parties, intending to be legally bound hereby, agree as follows:

AGREEMENTS:

1. Property Purchased. Seller hereby agrees to sell to Buyer, and Buyer agrees to buy from Seller, on the terms and conditions herein specified, up to the following-described portions of the Water Rights:

(1) WATER RIGHT NO. 35-7192A

Diversion Rate: .28 cfs

Diversion Volume: 109.6 acre-feet per year
Irrigated Acres: 27.4 acres

(2) WATER RIGHT NO. 35-9069

Diversion Rate: .03 cfs
Diversion Volume: 11.6 acre-feet per year
Irrigated Acres: 2.9 acres

The collective total portion of the Water Rights purchased equals .31 cfs and 121.2 acre-feet-per-annum for the irrigation of 30.3 acres, and are referred to hereafter as the "Purchased Water Rights."

2. Property Retained. Seller reserves and retains unto Seller all remaining portions of the Water Rights, together with any and all portions of any other water rights that may be appurtenant to the authorized place of use for the Water Rights other than the Purchased Water Rights. No land, easements, or other property interests, other than the Purchased Water Rights, are included in this Agreement.

3. Purchase Price and Potential Downward Adjustment.

(a) Purchase Price. The purchase price for the Purchased Water Rights is (the "Purchase Price"), which is based on the following unit values per acre foot of authorized annual volume of water to be conveyed to Buyer for each water right:

Water Right No.	Price per acre-foot	Acre-feet purchased	Total Price
35-7192A		109.6	
35-9069		11.6	
	TOTALS	121.2	

The Purchase Price, less the Earnest Money to be delivered to Seller as described in Paragraph 4 below, shall be payable to Seller at closing.

(b) Adjustment to Purchase Price and Water Rights to be Purchased Due to Transfer Conditions. Seller and Buyer acknowledge that the Purchase Price is based upon the unit values (set forth in paragraph 3(a) per acre-foot of water authorized by the Transfer (described in paragraph 6 below) to be available for Buyer's intended use. If due to acknowledged uncertainties in the final ESPA model configurations or otherwise, the Department approves the Transfer (as described in paragraph 6 below) but with conditions limiting the total annual diversion volume for irrigation to less than proposed in the Transfer, and

provided Buyer has waived the condition precedent described in paragraph 7 below, and elected to close on the purchase of the lesser quantity of the Water Rights approved under the Transfer, then the Parties agree that the Purchase Price will be adjusted downward based on the reduced annual diversion volume (in units of acre-feet) that has been approved by the Transfer to Buyer's use for irrigation multiplied by the price per acre-foot unit values.

4. Earnest Money Deposit. Contemporaneously with the execution of this Agreement, Buyer shall deliver to Seller earnest money in the amount of _____ (the Price, which is "Earnest Money"). The Earnest Money shall be applied towards the Purchase Price at closing, or otherwise disposed of as provided herein.

5. Closing.

(a) Closing Date. Closing on the Purchased Water Rights shall occur within thirty (30) days of the date of a final order of the Department approving the Application for Transfer to be filed by Buyer (pursuant to paragraph 6 herein), and after the contingencies described in paragraph 7 are met. The closing shall occur at the offices of the City of Ammon.

(b) Documents to be Delivered at Closing. At closing, Buyer and Seller shall execute (with acknowledgements, as needed) and/or deliver all instruments, documents and the balance of the Purchase Price necessary to complete the purchase and sale in accordance with this Agreement. The documents Seller shall deliver to Buyer at closing shall: (i) a Special Warranty Deed (the "Deed") substantially in the form attached to this Agreement as **Exhibit 2**; and (ii) any lien release or other documents reasonably requested to confirm the conveyance of the Purchased Water Rights free and clear of encumbrances. The Parties understand that the result of the approved Transfer will be that the Purchased Water Rights (which are portions of the Water Rights) will be assigned new identification numbers by IDWR, and those numbers shall then be included in the Deed.

(c) Payment of Balance of Purchase Price. The Buyer shall deliver the balance of the Purchase Price to Seller at closing. The transaction shall be deemed closed once the Parties have exchanged and mutually delivered all instruments, documents and monies necessary to complete the purchase and sale of the Purchased Water Rights in accordance with this Agreement.

(d) Fees and Costs of Closing. The cost of recording the Deed shall be paid by Buyer. All other expenses not specifically referenced in this Agreement but related to the Transfer and incurred by Seller or Buyer with respect to this transaction shall be borne and paid exclusively by the Party incurring the same, without reimbursement.

6. Use of Purchased Water Rights.

(a) Transfer Application to the Department. It is understood and agreed that within thirty (30) days after execution of this Agreement, Seller, on behalf of Buyer, shall file an application for transfer of a water right under Idaho law ("Application for Transfer" or "Transfer") of the Purchased Water Rights with the Department. Seller and Buyer agree to cooperate in obtaining Department approval of the Transfer. The Application for Transfer of the

Purchased Water Rights shall identify all of Buyer's authorized points of diversion in its municipal system as authorized points of diversion for the Purchased Water Rights, as well as the Buyer's municipal boundary as the authorized place of use of the Purchased Water Rights.

(b) Transfer Costs. Seller shall be responsible for the costs to prepare the Transfer, including all consultant fees for preparation of the Transfer application and calculation of mitigation, and Buyer shall be responsible for the costs of filing and prosecuting and defending the Transfer application, including all attorney fees, in the event the Transfer is protested and the subsequent administrative process associated with such protest(s) begins. Buyer and Seller shall use best efforts to obtain timely Transfer approval. Buyer authorizes Seller to make needed changes to the Transfer to facilitate the process of transferring the water, provided such changes made will not materially change the amount of money Buyer has to pay, or the amount of water Buyer receives, provided that Seller provides notice to the Buyer of such changes.

(c) Seller's right to any transfer or mitigation credits. If the Transfer results in any river flow or mitigation credits recognized by the Department in any reach of the Snake River or any portion of the Eastern Snake Plain Aquifer, all such credits shall be retained by Seller.

7. Contingencies and Conditions Precedent.

(a) Satisfactory Transfer Approval Contingency. The Parties expressly acknowledge and agree that performance under this Agreement is fully contingent upon the approval of the Application for Transfer by the Department in a manner reasonably satisfactory to the Buyer, unless such contingency is waived by the Buyer. If this Agreement does not close because the Department does not approve the Application for Transfer in a manner reasonably satisfactory to Buyer, then of the Earnest Money shall be retained by Seller and the remaining Earnest Money—

—shall promptly be returned by Seller to Buyer. If the Application for Transfer is approved by the Department in a manner reasonably satisfactory to Buyer and Buyer fails to close hereunder (through no fault of Seller), Seller shall be entitled to retain one-half (1/2) the Earnest Money deposit and shall promptly return the remaining one-half (1/2) to Buyer. In either such instance, Buyer shall be required to undertake, at Buyer's expense, actions that may be necessary with the Department to ensure that the Purchased Water Rights are in the same condition on the Department's records as they were prior to the execution of this Agreement. Upon such disposition of the Earnest Money and completion of such action to be taken by Buyer, the Parties shall be relieved of further obligation hereunder.

8. Default. In addition to either Party's failure to perform any material term or condition of this Agreement or a Party's breach of any of such Party's representations or warranties (in which event the non-defaulting party may pursue any available remedy, including equitable relief), Buyer shall be deemed in default hereof if Buyer files a petition in bankruptcy or is adjudicated bankrupt or insolvent, Buyer makes an assignment for the benefit of its creditors, or consents to the appointment of a receiver of itself or of its property, or institutes proceedings for its reorganization, in which case, in addition to any other remedies or rights Seller might have, Seller shall have the power and authority to notify the Department that the Application for Transfer has been withdrawn.

9. Seller's Representations and Warranties. Seller hereby represents and warrants to Buyer, as of the effective date of this Agreement and again as of the closing as follows:

(a) Authority. Seller has the full legal right, power and authority to enter into and perform this Agreement, and will obtain good marketable title to the Purchased Water Rights in fee simple, and Seller (at its expense) shall remove, or cause to be removed, all liens, claims, or encumbrances, whether of record or not, upon or affecting the Purchased Water Rights on or before closing.

(b) Conveyance. Provided that the contingencies in Paragraph 7 are satisfied, Seller shall then convey the Purchased Water Rights free and clear of all liens, encumbrances and restrictions, except such restrictions on the use of water as may appear on the water right records contained in **Exhibit 1** and in the Transfer approved by the Department.

(c) Appurtenance. The Purchased Water Rights are appurtenant to and have been beneficially used as the water source to irrigate its place of use and/or been properly preserved for future use (i.e., placed in the Idaho water supply bank) consistent with Idaho law.

(d) Not Forfeited. The Purchased Water Rights have not been forfeited or abandoned in whole or in part.

(e) No Representation or Warranty Concerning Suitability for Buyer's Intended Use. Seller has not made, and hereby makes, no representation or warranty to Buyer except as expressly contained in this Agreement.

10. Buyer's Representations and Warranties. Buyer hereby represents and warrants to Seller as of the effective date of this Agreement and again as of the closing for the Purchased Water Rights, as follows:

(a) Authority. Buyer has the legal power, right and authority to enter into this Agreement and to perform Buyer's obligations hereunder.

(b) Buyer's Due Diligence. Buyer and Buyer's consultants and counsel have had a full opportunity to review all documents, records and other information made available to Buyer by Seller and/or otherwise reasonably available to Buyer through public or other sources, related to the nature and extent of the Purchased Water Rights, the laws and rules affecting their transfer and use by Buyer, and the suitability or fitness of the Purchased Water Rights for Buyer's intended purposes.

11. Warranties to Survive Closing. All representations and warranties made by the Parties herein are also covenants, and each Party shall take all such actions as may be required to satisfy said covenants and to cause the representations and warranties to be true on and as of the closing. The Parties' respective obligations to close and consummate the transaction contemplated herein are contingent upon the representations, warranties and covenants contained in this Agreement being true, valid and satisfied on and as of the closing. All such representations and warranties shall survive the closing.

12. Miscellaneous.

(a) Attorneys' Fees. If either party commences any legal action or proceeding to enforce any of the terms of this Agreement (or for damages by reason of an alleged breach hereof), the prevailing party therein shall be entitled to recover from the other, in addition to any other relief granted, its reasonable attorney's fees, costs and expenses incidental to such legal action.

(b) Notices. Any notice under this Agreement shall be in writing and be delivered in person, by U.S. Mail, by private courier, or by facsimile. Notice shall be provided to the following:

Seller

Del Kohtz
Idaho Water Company LLC
1135 Valley Road S
Eden, ID 83325
(208) 825-5617

Seller's Representative

Michael C. Creamer
Givens Pursley, LLP
601 W. Bannock Street
Boise, ID 83702
(208) 388-1200

Buyer

City of Ammon City
2135 South Ammon Road
Ammon, Idaho 83406
(208) 612-4000

Buyer's Representative

Idaho Falls, ID 83402
(208) 522-3001

(c) Merger. This Agreement supersedes any and all other written or verbal agreements between the Parties hereto regarding the Purchased Water Rights. Neither Buyer nor Seller shall be bound by any understanding, agreement, promise, representation or stipulation, express or implied, not specifically contained herein.

(d) Broker. It is understood and agreed by and between the Parties that the transaction herein contemplated does not involve a broker for either Seller or Buyer. To the extent any broker commissions are owed as a result of this transaction by Buyer, Buyer agrees to be solely liable therefore, and Buyer agrees to indemnify Seller from any such commissions. To the extent any broker commissions are owed as a result of this transaction by Seller, Seller agrees to be solely liable therefore, and Seller agrees to indemnify Buyer from any such commissions.

(e) Own Account. Seller discloses and Buyer acknowledges that Delbert G. Kohtz, Seller's managing member, is a licensed real estate agent acting herein as Seller's principal for his own account and is not representing or acting as an agent for Buyer.

(f) Remedies Cumulative. Upon any breach, any and all rights and remedies which either Party may have under this Agreement or by operation of law or equity, shall be distinct, separate and cumulative and shall not be deemed inconsistent with each other. No such right or remedy, whether exercised by said Party or not, shall be deemed to be in exclusion of any other right or remedy, any two or more of all such rights and remedies may be exercised at the same time or separately as desired.

(g) Further Documents. The Parties hereby agree that they shall sign such other and further documents as may be required to carry into effect the terms and conditions of this Agreement.

(h) Enforceability. The validity or enforceability of any term, phrase, clause, paragraph, restriction, covenant, agreement or other provision hereof, shall in no way affect the validity or enforcement of the remaining provisions, or any part hereof.

(i) Counterparts. This Agreement may be executed in any number of counterparts for all the convenience of the Parties, all of which, when taken together and after execution by all Parties hereto, shall constitute one and the same Agreement.

(j) Governing Law. This Agreement shall be governed by the laws of the State of Idaho.

(k) Successors. This Agreement is for the benefit only of the Parties hereto and shall inure to the benefit of and bind their respective heirs, agents, personal representatives, successors and assigns.

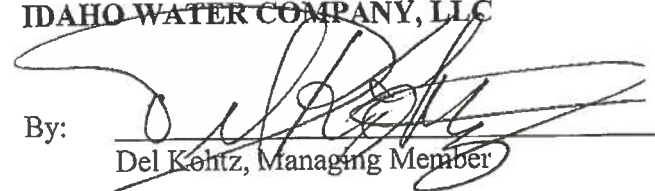

(l) Essence of Time. Time is of the essence in this Agreement.

IN WITNESS WHEREOF, the undersigned have duly executed this Agreement effective on the date set forth above.

OPTION AGREEMENT FOR PURCHASE AND SALE OF WATER RIGHT

THIS AGREEMENT is made and entered into this 10th day 2012
by and between **Foster Land and Cattle** of PO Box 40 Ririe, Id. 83443 (hereinafter
"Seller") and **Idaho Water Company LLC** of 1135 Valley Rd. SO. Eden, ID. hereinafter
("Buyer"). The buyer, Del Kohtz discloses that he is a licensed real estate agent acting
for his own account and not as an agent of the end buyer.

TERMS AND CONDITIONS

1. The Sellers, in consideration of the terms contained herein, do hereby
contract and agree to sell and convey to the Buyers and the Buyer does hereby agree
to buy from the Sellers portions of Idaho Water Rights # 35-7192A and 35-9069 and
the water appurtenant thereto, for _____ per acre. There are 174.7 acres in this
agreement. No land is included in this agreement.

2. The total purchase price shall be _____

The entire purchase price shall be paid on the closing
dates described in paragraph 4 below less _____ earnest money paid at signing.

3. This Agreement for Purchase and Sale of said license is contingent upon and
subject to IDWR finding that the Water Right is valid and transferable. If the Water
Right is invalid or non-transferable, this Agreement shall become null and void.

1. General Information

This report presents the results of an evaluation of off-setting transient changes to the model river reaches of the Eastern Snake River Plain Aquifer (ESPA) resulting from the off-setting impacts of five individual water right transfers which have been combined for mitigation purposes.

Each of the five transfers seek to change the place of use for varying portions of existing water rights 35-7192A and 35-9069. A table showing the proposed splits based on proportional fractions of the existing right is attached as **Appendix A**. A map showing the locations of the proposed and historical diversion locations is attached as **Appendix B**.

The existing water rights 35-7192A and 35-9069 have the maximum authorized volume of 4.0 acre-ft per acre authorized for use and both water rights share the same priority date of November 29, 1971. Transfer #5 to Jefferson Lake requires an initial reduction during the first year after transfer to mitigate transient increases within 5% of historical impacts which are exceeded when only the mitigating effects of the other transfers are considered. For all other transfers, the full transferred volume is available immediately following formal transfer approval by IDWR with the analysis modeling the new use as early as the spring trimester in 2014.

2. Model Approach

Simulation of transient impacts to ESPA river reaches resulting from the proposed transfers was performed utilizing the most recent ESPA Transfer Spreadsheet Tool Version 3.1 developed by IDWR in cooperation with the Idaho Water Resources Research Institute (IWRRI). In each of the five model analyses, the determination of changes to ESPA river reaches was evaluated utilizing only the specific volume proposed for each individual transfer. The "without transfer" impacts are determined by modeling the diversion of the historical headgate volume authorized by the water right beginning on the priority date of the water right and continuing through the end of the model time period. This provides a baseline of priority authorized reach impacts according to the historical diversion

location of the proposed transferred water rights. The impacts resulting from the new diversion location is modeled in the "TO Well" with total change in impacts calculated through summation of residual impacts still propagating from the past historical use combined with the new impacts resulting from diversion of the water right at the proposed new location.

Following determination of independent transfer impacts, the results were examined to determine if mitigation was required for each model time step. If the individual reach impacts exceed 10% of the total diversion, **and** the increase in reach impacts exceeds 2 acre-ft per year **and** the increase in reach impacts exceeds 10% of the calculated historical baseline impacts then mitigation is required. Where mitigation was found to be required for an individual transfer, the off-setting impacts from some combination of the other transfers is included to determine if additional mitigation is required. Only the Jefferson Lake transfer exceeds the historical reach impacts when the off-setting impacts are considered, however, an initial reduction in authorized volume satisfies the mitigation requirement. Both the City of Ammon and City of Chubbuck well systems were modeled as diverting from the weighted centroid based on recent historical diversion records.

3. Transfer #1 (City of Ammon)

Transfer #1 seeks to provide ground water irrigation water rights for use within the service area of the municipal water supply system of the City of Ammon to meet peak summer demand. The City of Ammon wells lie within 5 individual ESPA model cells. The transfer seeks to authorize the diversion of the transferred water right from any of the City of Ammon wells and analysis of historical diversions indicates the centroid of diversions lies within ESPA model cell 75,163. The steady state impacts from the proposed transfer are shown below in **Table 1**. All spring reaches not shown experience negligible impacts.

OFF-SETTING TRANSFER #1				Steady State Impacts by Reach					
	POD Location	Model Volume [afa]	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl
Foster L&L	4N,35E-11	121.2	SP054155	10.7	12.6	37.9	56.0	1.4	1.4
City of Ammon	2N,38E-11	121.2	SP075163	9.5	17.2	44.2	47.0	1.1	1.2
Change in Impacts:				-1.2	4.6	6.4	-9.0	-0.2	-0.3
Mitigation Required? (> 6 afa or >10% hist.)				NO	NO	YES	NO	NO	NO

Table 1: Changes to ESPA Reach Impacts Resulting from Proposed Transfer to City of Ammon

3.1. Transfer #1 ESPA Transient Impacts

Calculated worst-case transient impacts (acre-ft per trimester) resulting from the transfer to ESPA model cell (75,163) utilizing the ESPA Transfer Spreadsheet are shown below in **Chart 1**. The transient analysis reveals an increase over projected historical impacts in the Heise to Shelley and Shelley to Near Blackfoot reaches. Only the Shelley to Near Blackfoot reach experiences a net increase over 2 acre-ft per trimester requiring mitigation. The off-setting mitigation provided by this transfer to the Near Blackfoot to Neeley reach is also apparent.

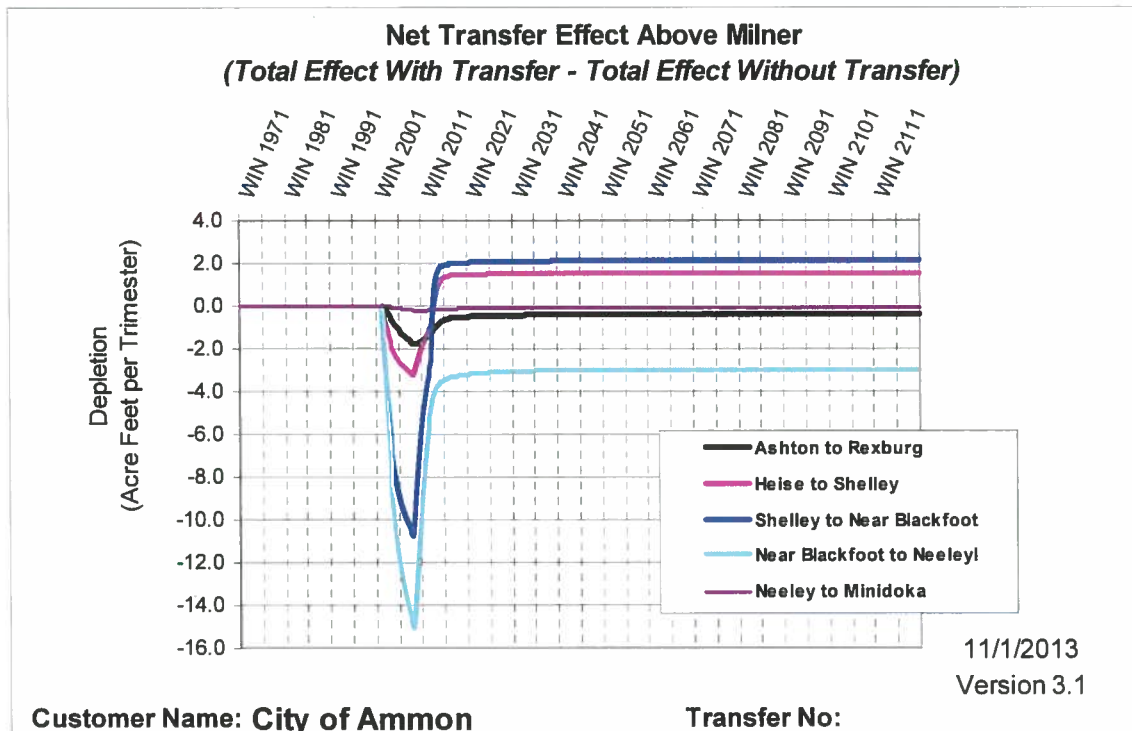

Chart 1: Transient ESPA Reach Impacts from Proposed Transfer to the City of Ammon

4. Transfer #2 (City of Chubbuck)

Transfer #2 seeks to provide ground water irrigation water rights for use within the service area of the municipal water supply system of the City of Chubbuck to meet peak demand. The City of Chubbuck wells lie within several individual ESPA model cells as shown in the application for transfer. The transfer seeks to authorize the diversion of the transferred water right from any of the city wells. Analysis of historical diversions indicates the centroid of diversions lies within ESPA model cell 96,122. **Table 2** (below) shows the historical and expected steady state impacts (acre-ft per year) of the proposed transfer. The ESPA reaches comprising at least 10% of the total impacts related to diversion from the proposed well are the Shelley to Near Blackfoot and Near Blackfoot to Neeley reaches (impacts shaded).

This location within the ESPA model generates significantly higher reach impacts in the Near Blackfoot to Neeley model reach while providing significant off-setting mitigation to the three uppermost reaches. The Neeley to Minidoka reach also shows an increase, however the impacts to that reach are less than 2 acre-ft per trimester so no mitigation is normally required for that particular reach according to current IDWR policy¹. Transfer #2 to the City of Chubbuck specifically generates off-setting mitigation credits for Transfer #1 in the Shelley to Near Blackfoot reach and for Transfer #5 in the Heise to Shelley reach.

OFF-SETTING TRANSFER #2				Steady State Impacts by Reach					
	POD Location	Model Volume [afa]	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl
Foster L&L	4N,35E-11	92.0	SP054155	8.1	9.5	28.7	42.5	1.0	1.1
City of Chubbuck	6S,34E-3	92.0	SP096122	1.9	2.3	20.9	63.4	1.3	1.2
Change in Impacts:				-6.2	-7.3	-7.8	20.9	0.2	0.1
Required? (Change > 6 afa and >10% over historical):				NO	NO	NO	YES	NO	NO

Table 2: Changes to ESPA Reach Impacts Resulting from Proposed Transfer to the City of Chubbuck

¹ IDWR Administrator's Memorandum (Transfer Processing No. 24, 12/21/2009) pg. 13 (b).

4.1. Transfer #2 ESPA Transient Impacts

Calculated transient impacts (acre-ft per trimester) resulting from the transfer to the City of Chubbuck utilizing the ESPA Transfer Spreadsheet showing the upper ESPA reach impacts (acre-ft per trimester) are shown below in **Chart 2**. All spring reaches not shown experience negligible impacts.

According to the transient analysis, there is an initial spike where historical impacts overlap with modeled new diversions exceeding the steady state values. These compounded impacts recede after approximately 10 years asymptotically approaching the steady state impacts. In agreement with the calculated steady state analysis, this transfer generates off-setting credits in the Ashton to Rexburg, Heise to Shelley and Shelley to Near Blackfoot reaches.

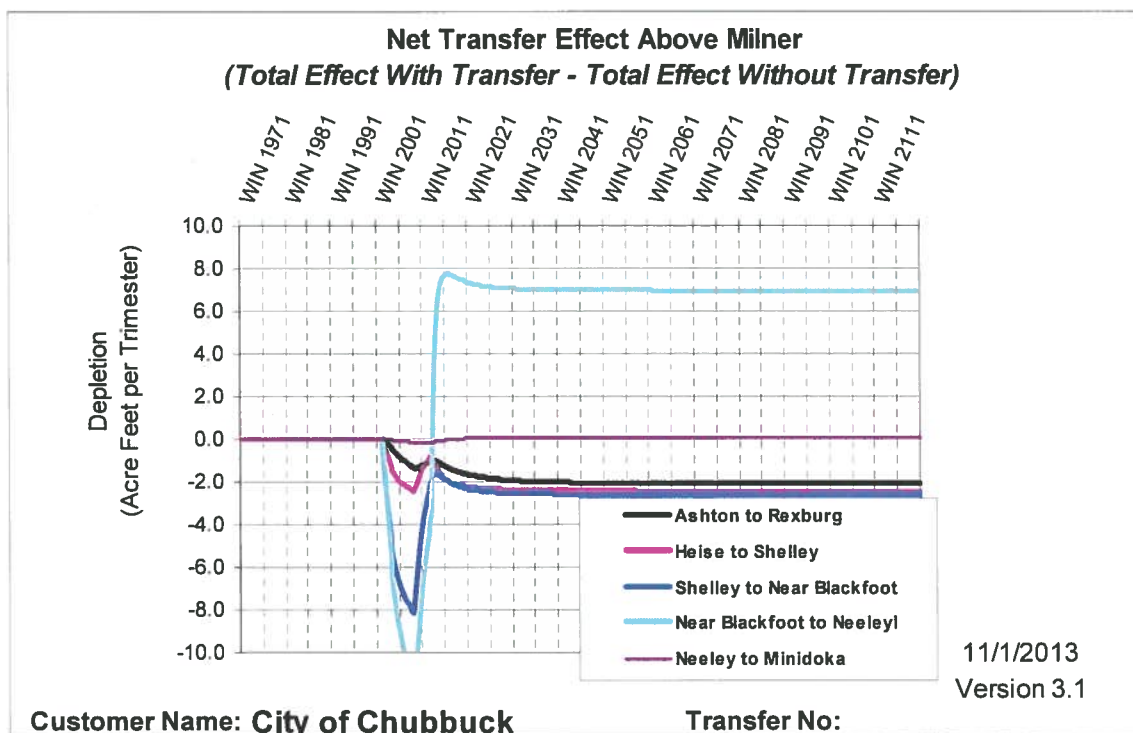

Chart 2: Transient ESPA Reach Impacts from Proposed Transfer to the City of Chubbuck

5. Transfer #3 (Flying A)

Transfer #3 seeks to provide 2 acres of ground water irrigation water rights for irrigation uses within an existing permissible place of use associated

with current water rights 21-13121, 21-13149 and 21-13177. This location experiences a reduced consumptive irrigation diversion of 3.5 acre-ft per acre rather than the current authorized rate of 4.0 acre-ft per acre. **Table 3** below shows the expected steady state impacts of the proposed transfer to the Flying A property in the upper ESPA reaches. The ESPA reaches comprising at least 10% of the total impacts related to diversion from the proposed well is only the Ashton to Rexburg reach (impacts shaded). All spring reaches not shown experience negligible impacts.

According to the steady state analysis, no reaches experience an increase in impacts over 2 acre-ft per model trimester (6 acre-ft per year). Transfer #3 does however, generate significant off-setting mitigation for Transfer #1 within the Shelley to Near Blackfoot reach and Transfer #2 within the Near Blackfoot to Neeley reach. Some minor credits are also generated in the Heise to Shelley reach providing additional off-setting mitigation for Transfer #5.

OFF-SETTING TRANSFER #3				Steady State Impacts by Reach					
	POD Location	Model Volume [afa]	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl
Foster L&L	4N,35E-11	8.0	SP054155	0.7	0.8	2.5	3.7	0.1	0.1
Flying A	9N,42E-20	7.0	SP050202	6.1	0.6	0.1	0.2	0.0	0.0
Change in Impacts:				5.4	-0.3	-2.4	-3.5	-0.1	-0.1
Required? (Change > 6 afa and >10% over historical):				NO	NO	NO	NO	NO	NO

Table 3: Changes to ESPA Reach Impacts (Above Milner) Resulting from Transfer to Country Club Hills

5.1. Transfer #3 ESPA Transient Impacts

Calculated transient changes (acre-ft per trimester) from historical impacts to upper ESPA reaches resulting from the proposed transfer to the Flying A property utilizing the ESPA Transfer Spreadsheet are shown in **Chart 3**.

According to the results of the transient model analysis, additional impacts in the Ashton to Rexburg reach increase quickly but never exceed 2 acre-ft per trimester over historical levels. The offsetting mitigation generated in the Shelley to Near Blackfoot and Near Blackfoot to Neeley reaches is also readily apparent with reduced mitigation over steady state levels provided during the first few years following the transfer. Increased mitigation over steady state levels is also

apparent in the Heise to Shelley reach specifically off-setting impacts for Transfer #5.

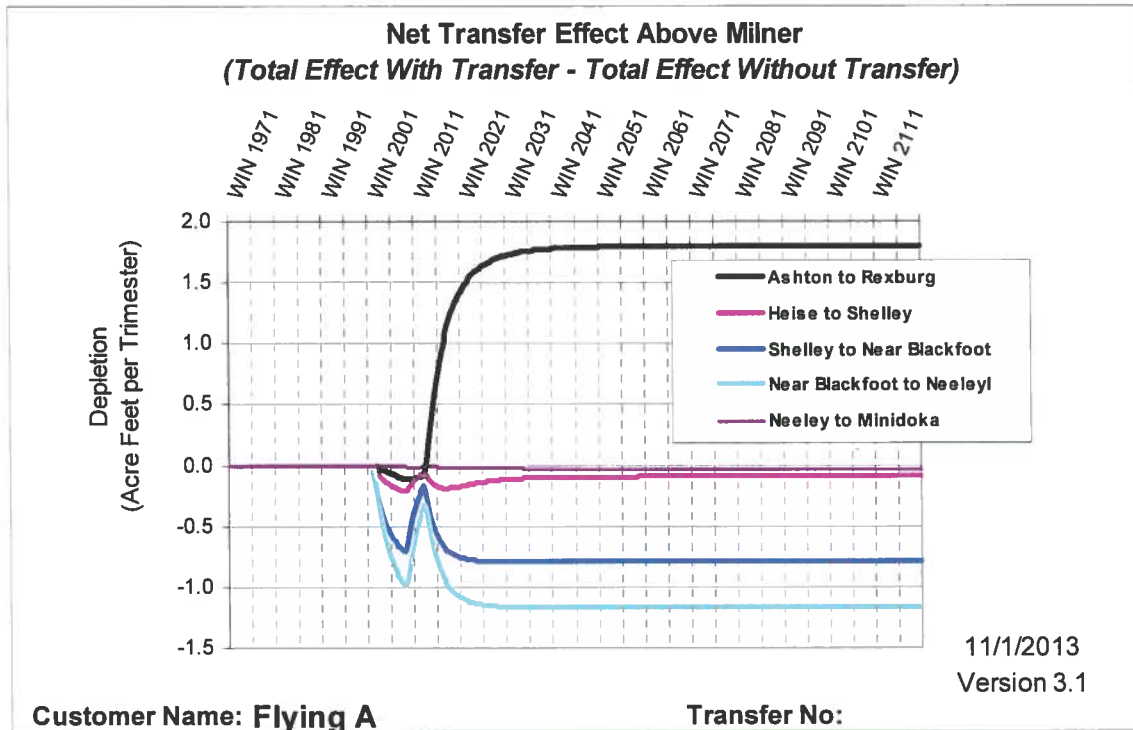

Chart 3: Changes to ESPA Reach Impacts (Above Milner) Resulting from Transfer to Flying A

6. Transfer #4 (Wickel Land, LLP)

Transfer #4 seeks to provide additional ground water irrigation water rights for use within an existing permissible place of use owned by Wickel Land, L.P. **Table 4** (below) shows the expected steady state impacts (acre-ft per year) of the proposed transfer to the Wickel wells in the upper ESPA reaches. The ESPA reaches comprising at least 10% of the total impacts related to diversion from the proposed well are the Near Blackfoot to Neeley, Neeley to Minidoka and Devil's Washbowl to Buhl reaches (impacts shaded).

Transfer to this location within the ESPA model generates increased reach impacts in the Neeley to Minidoka and Devil's Washbowl to Buhl reaches under 6 acre-ft per year at steady state. According to the steady state analysis, this

particular transfer provides off-setting mitigation to the four uppermost reaches of the Snake River off-setting impacts of each of the other transfers

OFF-SETTING TRANSFER #4				Steady State Impacts by Reach					
	POD Location	Model Volume [afa]	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl
Foster L&L	4N,35E-11	32.0	SP054155	2.8	3.3	10.0	14.8	0.4	0.4
Wickel	10S,25E-30	32.0	SP090059	0.4	0.4	3.1	10.9	5.7	6.2
Change in Impacts:				-2.5	-2.9	-6.9	-3.9	5.3	5.9
Required? (Change > 6 afa and >10% over historical):				NO	NO	NO	NO	NO	NO

Table 4: Changes to ESPA Reach Impacts Resulting from Transfer to Wickel Land, L.P.

6.1. Transfer #4 ESPA Transient Impacts

Evaluation of transient ESPA reach impacts (acre-ft per trimester) calculated utilizing the ESPA Transfer Spreadsheet resulting from Transfer #4 are shown in **Chart 4**. According to the results of the transient model analysis, the slight increase in impacts generated in the Neeley to Minidoka reach

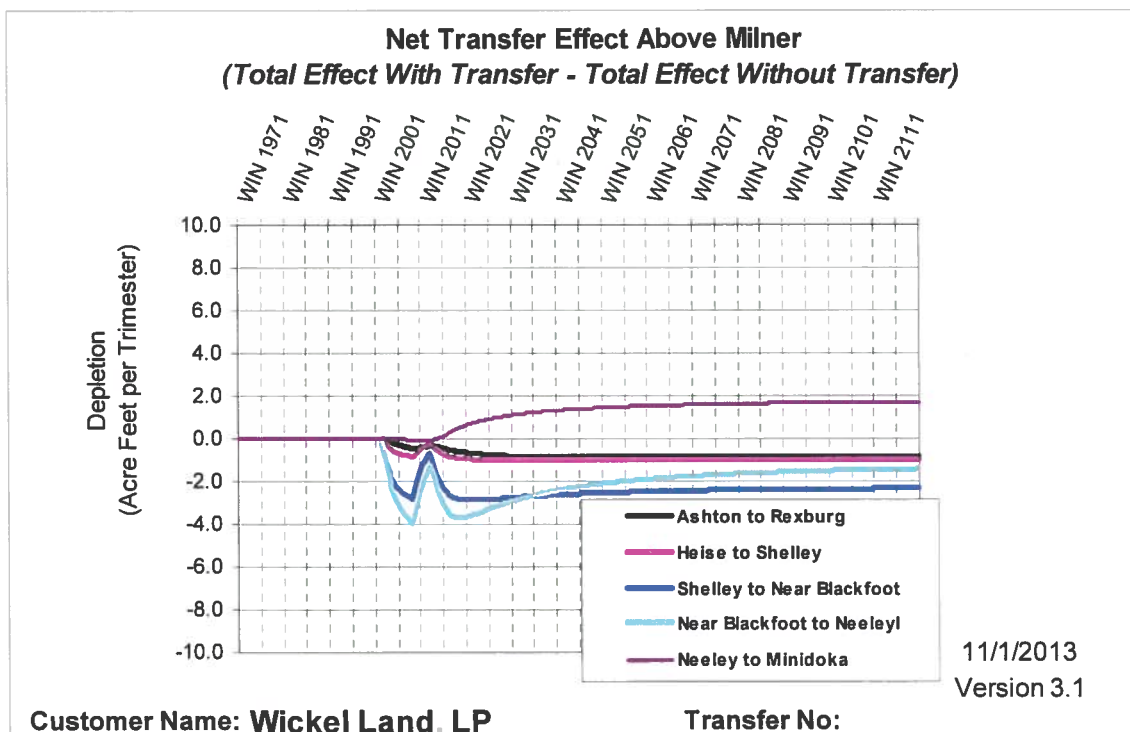

Chart 4: Changes to ESPA Reach Impacts (Above Milner) Resulting from Transfer to Wickel

increases asymptotically toward the calculated steady state values but do not exceed 2 acre-ft per model trimester. The off-setting impacts in the upper reaches is also apparent. All spring reaches not shown experience negligible impacts

7. Transfer #5 (Jefferson Lake)

Transfer #5 seeks to provide additional ground water irrigation water rights for use at the Jefferson County Lake Recreation area. **Table 5** shows the expected steady state impacts (acre-ft per year) of the proposed transfer to the Jefferson Lake well in the upper ESPA reaches. The ESPA reaches comprising at least 10% of the total impacts related to diversion from the proposed well are the Ashton to Rexburg and Heise to Shelley reaches (impacts shaded).

Transfer to this location within the ESPA model generates increased reach impacts in the Ashton to Rexburg reach under 6 acre-ft per year at steady state and requires mitigation for the increased impacts in the Heise to Shelley reach. According to the steady state analysis, this particular transfer provides significant off-setting mitigation to the Shelley to Near Blackfoot and Near Blackfoot to Neeley reaches of the Snake River.

OFF-SETTING TRANSFER #5				Steady State Impacts by Reach					
	POD Location	Model Volume [afa]	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl
Foster L&L	4N,35E-11	16.0	SP054155	1.4	1.7	5.0	7.4	0.2	0.2
Jefferson Lake	10S,25E-30	16.0	SP064173	4.5	10.0	0.6	0.8	0.0	0.0
Change in Impacts:				3.1	8.3	-4.4	-6.6	-0.2	-0.2
Mitigation Required? (> 6 afa or >10% hist.)				NO	YES	NO	NO	NO	NO

Table 5: Changes to ESPA Reach Impacts Resulting from Transfer to Jefferson County Lake

7.1. Transfer #5 ESPA Transient Impacts

Evaluation of transient ESPA reach impacts (acre-ft per trimester) calculated utilizing the ESPA Transfer Spreadsheet resulting from Transfer #5 are shown in **Chart 5**. This transient analysis includes an initial reduction to 75% of the transfer volume utilized during the first year after transfer. According to the results of the transient model analysis, there is a slight increase over steady state

during the first few years after transfer. The reduced impacts in the Shelley to near Blackfoot and Near Blackfoot to Neeley reaches off-setting a portion of the increased impacts resulting from Transfer #1 and Transfer #2 are also apparent.

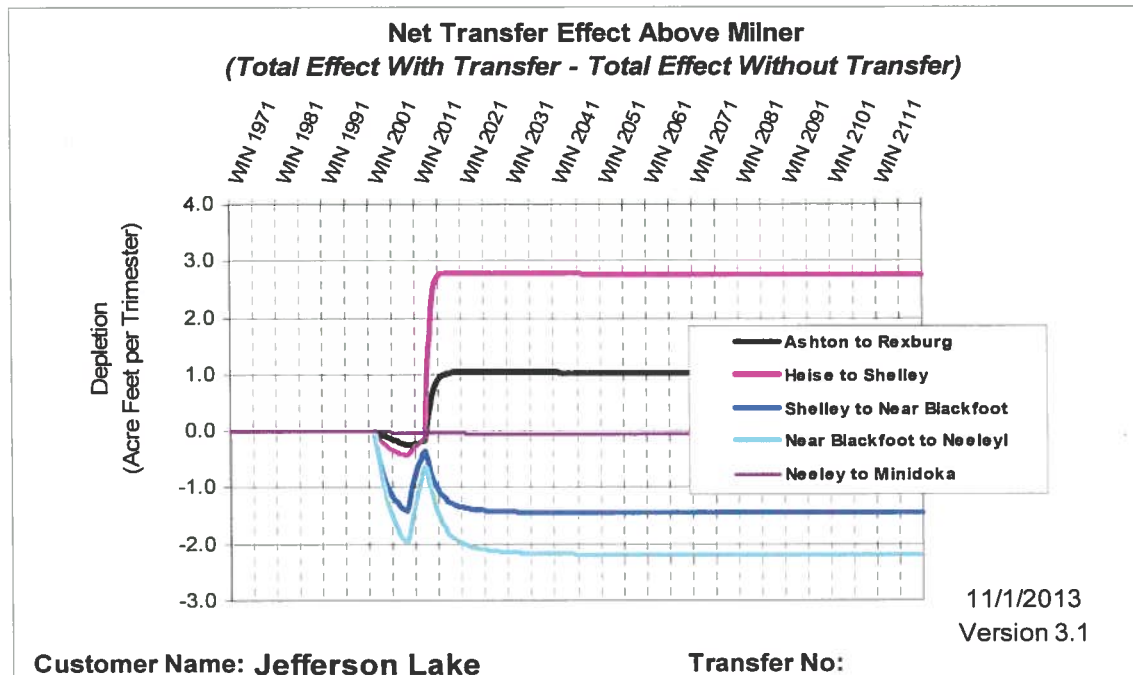

Chart 5: Changes to ESPA Reach Impacts (Above Milner) Resulting from Transfer to Jefferson Lake

8. Analysis of Required Mitigation & Off-Setting Impacts

Based on the results of the transient analysis conducted for each individual transfer, there are three ESPA model reaches requiring mitigation by three of the five transfers. Table 6 below shows the steady state impacts and off-setting impacts for the model reaches requiring mitigation

SUMMARY - Required Mitigation & Credits Provided by Off-Setting Credit Transfers									
	POD Location	Model Node	Ashton to Rexburg	Heise to Shelley	Shelley to Near Blackfoot	Near Blackfoot to Neeley	Neeley to Minidoka	Devil's Washbowl to Buhl

Table 8: Heise-Shelley Combined Transient Impacts

8.2. Shelley to Near Blackfoot

Chart 6 on the following page shows the calculated transient impacts within the Shelley to Near Blackfoot reach associated with the proposed transfer to the City of Ammon and the off-setting mitigation provided by the companion transfers to the City of Chubbuck, Flying A and Wickel Land, L.P. According to the combined results, the transfers to the City of Chubbuck, Flying A and Wickel provide ample mitigation throughout the model period even without considering the additional credits generated by the additional off-setting transfer to Jefferson Lake.

Hydrologic Response--Shelley to Near Blackfoot

Customer Name: Idaho Water Co.
(35-7192A,9069)

Transfer No: Off-Setting

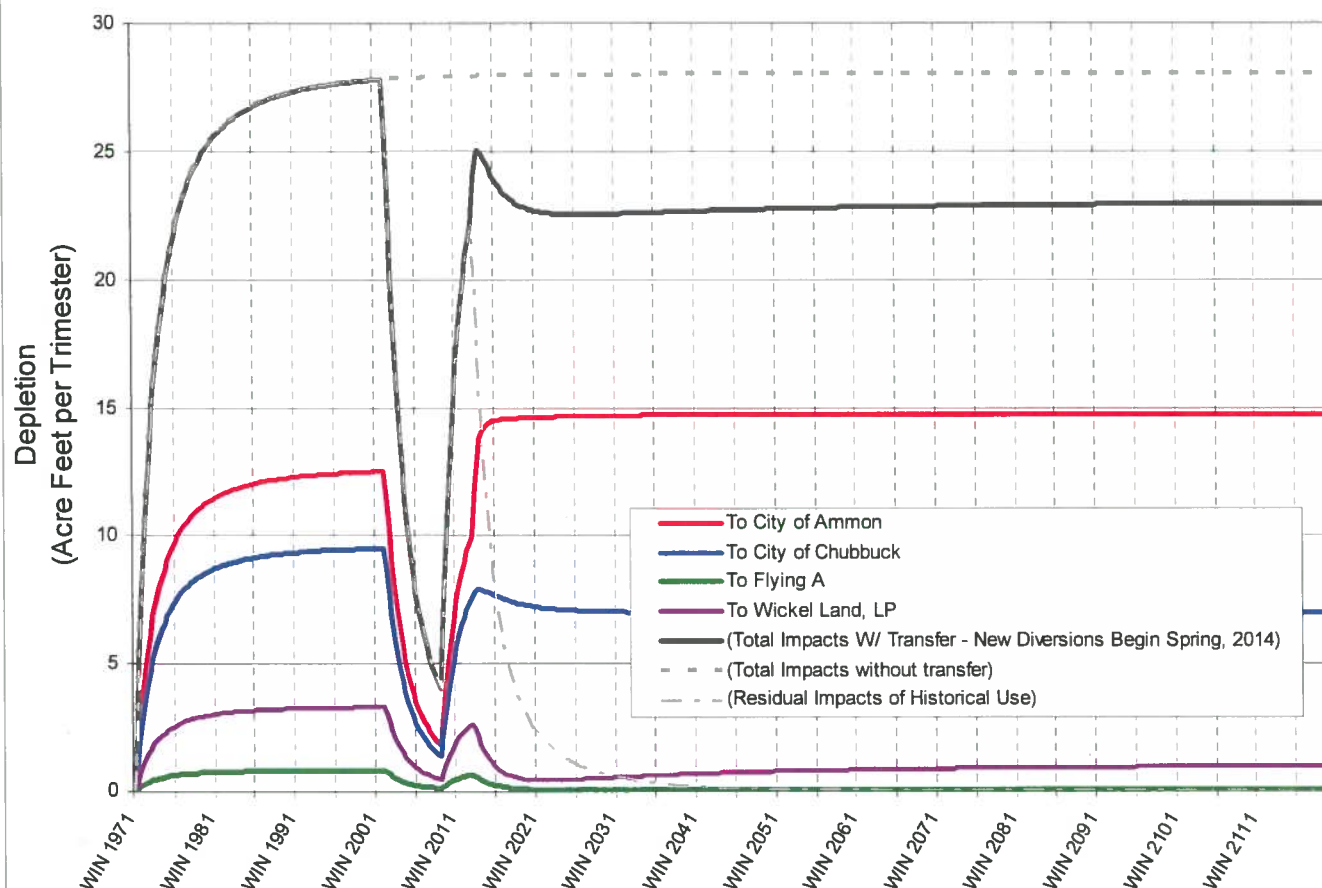

Chart 6: Shelley to Near Blackfoot Combined Transient Impacts

8.3. Near Blackfoot to Neeley Impacts

The following chart shows the individual and off-setting transient impacts within the Near Blackfoot to Neeley reach associated with the proposed companion transfers. According to the model analysis, total impacts within the Near Blackfoot to Neeley reach are maintained below historical levels throughout the transient model period as a result of the combined off-setting transfers.

Hydrologic Response--Near Blackfoot to Neeley

Customer Name: Idaho Water Co.
(35-7192A,9069)

Transfer No: Off-Setting

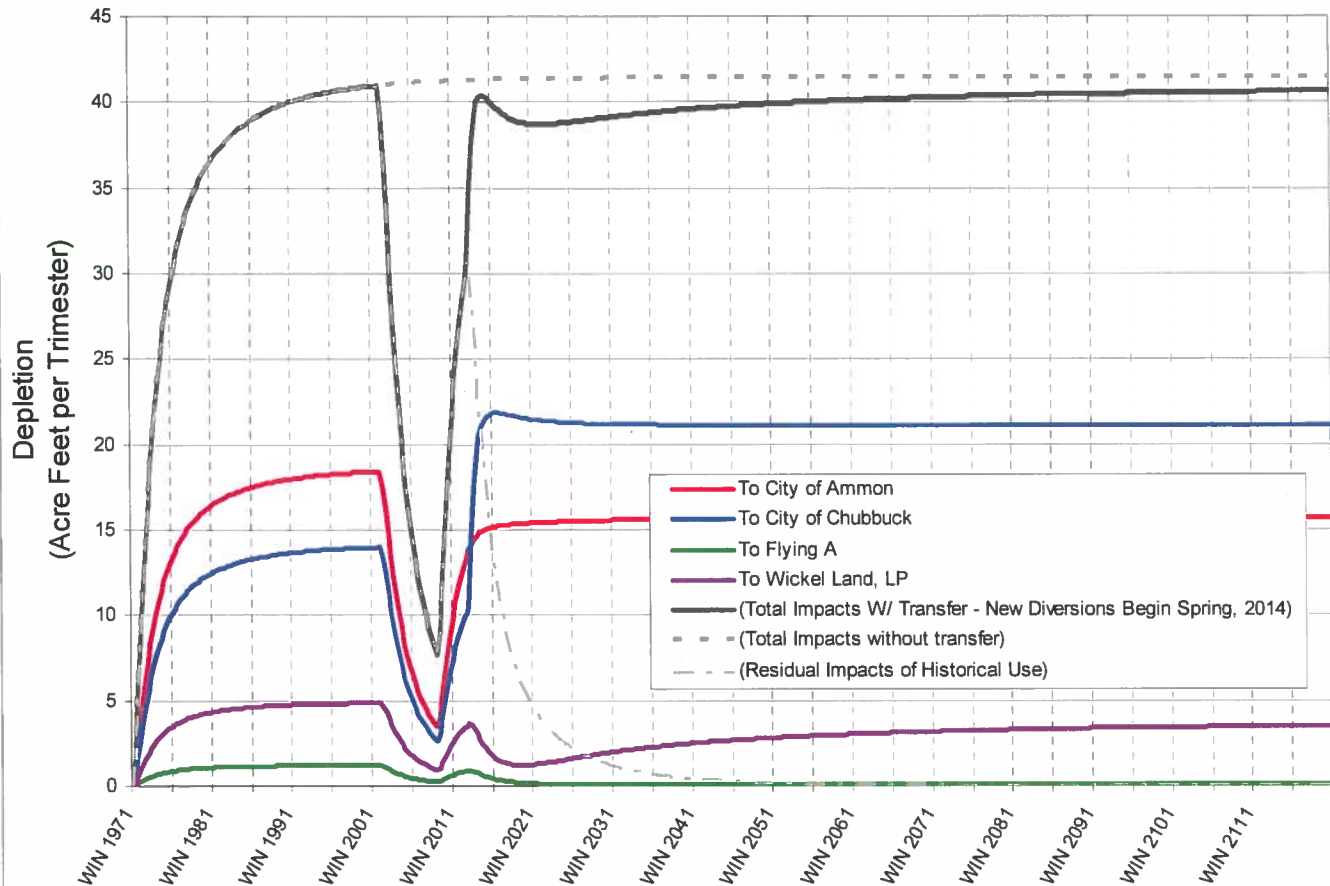

Chart 7: Near Blackfoot to Neeley Combined Transient Impacts

9. Results & Conclusions

According to the ESPA Transfer Spreadsheet transient analysis, the spatial distribution of the water right portions associated with the transfers maintains ESPA reach impacts closely near historical levels for all significant reaches when the off-setting mitigation is considered. While the transfer to the Jefferson Lake Recreation area generates slightly increased impacts during the initial period of the transient model, those impacts are mitigated to within 5% of historical levels when an initial single year reduction to 75% of the transferred

volume for that particular transfer is included in addition to the off-setting credits generated by the other companion transfers.

The ESPA Transfer Spreadsheet input data summary describing the model analysis is attached as **Appendix C**. The input data utilized for each of the five transfers is attached as **Appendix D**. The stepwise results of the analysis tabulating required mitigation and off-setting impacts for each ESPA reach found to require mitigation is attached as **Appendix E**.
