Steve Schmidt;
Regional Supervisor

Dear Sir;

This letter is a follow up letter regarding a protest filed by the Idaho Department of Fish and game against a non-consumptive water right application filed by Gordon Fulton for power generation purposes (Application for permit No. 34-14339) on Rock Creek, near Mackay Idaho.

As per our prior agreement, on March 25, 2013, I again had the local water master come up and measure the in stream flow bypassing the concrete head gate structure, as well as the flow being diverted on Rock Creek. Enclosed is a copy of his letter showing the current measurements. As you can see the flows remained virtually unchanged from the Month before, and appear to be consistent with the normal wintertime flows that I have observed for the last several years.

Hopefully this information will help. If I can be of further assistance to help resolve your concerns please let me know.

Sincerely;

Gordon Fulton
