Re: Request for Extension of Time filed on 10/31/2013 for Water Right Permit #65-23512

Dear Permit Holder(s):

The Department is in receipt of your extension requesting a (5) year extension of time for submitting proof of beneficial use on the above referenced water right permit. You are allowed an initial (5) year development period according to Idaho code, and only one extension after that for up to (5) more years.

Your permit allowed (1) year for development. If you were to request that I modify your extension request form to reflect a (4) year extension now in lieu of the 5 requested, this will take you through the initial 5 years allowed for development. You would then be allowed to file one more extension request later for up to (5) more years.

The department could only make this change with a response from you requesting that your extension request form be modified to reflect the (4) year request.

If you decide to leave your extension request as a (5) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

Please respond with the amount of time you prefer on the Request for Extension of Time form you have filed with the department.

Sincerely,

Darla Block
