PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-23068

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof statement and water right permit, I found that condition no. 7 of this permit states:

"Prior to diversion and storage of water under this right, the right holder shall provide a means acceptable to the Department to measure the amount of water entering the reservoir and the amount of water released from the reservoir to provide the water master suitable control of storage and/or available natural flow water."

Condition no. 7 listed above can be easily be complied with by installing staff gages. I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Be advised that Section 42-248, Idaho Code, requires you as the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office. These forms are available on the Department's website at: www.idwr.idaho.gov

If you have questions about the field examination, please contact the Western Regional Office in Boise at (208) 334-2190.

Sincerely,

Darla Block
