RE: Permit No. 96-9497

EXTENSION DEFICIENCY LETTER

Dear Permit Holder(s):

The Department received your request for extension of time on November 8, 2013. While reviewing your request I note that you stated the reason you have been unable to move forward with development of your project is that the Idaho Department of Lands has not yet approved your encroachment permit. The Department requires evidence of government delay. Please provide the Department with a copy of the application for encroachment showing the date application was made. Once the Department receives this evidence, I will then be able to move forward with processing your extension request. I will consider your filing the evidence as showing due diligence.

Idaho statute provides that the Department may grant an initial 5 year development period for due diligence. After the initial 5 year development period you are allowed one request for extension of time for up to 5 more years. Your permit allowed (2) years for development. If you were to revise your extension request form to reflect a (3) year extension request now, this would take you to the end of your initial 5 year development period allowed. You would later be able to submit an additional request for extension of time for up to (5) more years.

I am returning your original request for extension of time form so that you may revise and initial your form to reflect a (3) year extension now in lieu of the 5 years requested. Please return your revised extension request with a copy of your application for encroachment within **15-days** from the date of this letter.

If you have any questions, please feel free to contact me at 208-287-4945.

Sincerely,

Darla Block
