Subject: Application for Transfer of Water Right - 78618

Mayor Joe Cook,

I have a couple of questions regarding your Application for Transfer of Water Right No. 78618.

Item No.3.: In the list of water rights, new Water Right 65-23263, is not included. When this application was submitted, Water Right 65-23263 was a permit. Now that it is a licensed water right, we need to know if you wish to add to the application.

Item No.4.: Total amount of water – 4.62 cfs. The maximum combined use limits for the listed water rights is 3.45 cfs.

These changes can be accomplished in our office, or submitting an amended application.

Please give me a call and let me know how you wish to make these changes to your application.

Thanks,

Rick Collingwood, P.E.
Water Resource Agent, Sr.
