Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. and Mrs. Isaac:

The Idaho Department of Water Resources is reviewing your application for a new water right and found a discrepancy in the place of use. On page 2 of the application the place of use is shown as being in the NW1/4 of the SE1/4 of Section 9. The drawing that accompanied the application indicates the place of use is located within the NE1/4 of the SW1/4 of Section 9. I'm sure this was an over site when the application was submitted to the department, however, it must be corrected before processing can begin.

Please correct the application, as shown and please refer to the aerial photograph I have attached for your reference. Once the application has been corrected, please return the document to me within the next 30 days so as not to further delay processing. If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin
