RE: Notice of Ownership Change: 65-1204 & 65-22813

Dear Applicants,

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. However, the application has not been processed.

On July 22, 2013, and October 8, 2013, I spoke with Sharon requesting further documentation in order to change the ownership for the above referenced water rights. As of November 8, 2013, the Department has not received the requested documentation.

The following was either not submitted with the notice or needs some clarification.

- Please complete an Assignment of Permit for permit no. 65-22813. This right is still in the permit stage. The form needs to be completed, signed by the current owner of the permit, and notarized. I have enclosed the form required which is also available on our web site, www.idwr.idaho.gov.
- To change ownership of Right No. 65-1204, please complete a Notice of Change in Water Right Ownership with a valid water right no. Right No. 65-1204 is the parent right of a split that occurred resulting in renumbering this water right, using a new water right number to represent each split. The new water right numbers are 65-23541 & 65-23542. If you feel you are entitled to one of these water rights please resubmit the form with the correct rite listed.

Because the Department cannot process this request at this time, we are returning the application and all attachments. A refund has been requested that will be sent to the payer under separate cover. You may submit the forms with the required documentation and fees at any time.

Should you have questions, please call this office at 208-334-2190.

Sincerely,

Rachel Sommer
Administrative Assistant I
Western Regional Office
