RE: Permit 95-16518 – Place of Use

Dear Ms. Lekander,

When we spoke on the phone, I said I would send you a reference map to show you the lots that are already covered with water right 95-8735. It appears that permit 95-16518 covers lot 32 which is already part of the place of use described under license 95-8735.

The attached map shows the 4 lots covered by license 95-8735. Please take a look at the map and then give me a call at (208) 287-4916 and let me know if there are other lots that have the infrastructure in place allowing for new hook ups.

If Lot 32 is the intended place of use for permit 95-16518, then IDWR cannot issue a second license for a use that is already covered under license 95-8735. If lot 32 is not intended to be the place of use for permit 95-16518, then I will need you to identify the correct place of use (other lot), in which water is or can be delivered for domestic uses.

Respectfully submitted,

Craig L. Saxton
Water Rights Supervisor
Water Right Permits Section

Red outline shows the place of use for water right 95-8735 which has just been licensed. You can see that 95-8735 covers 4 lots for 4 domestic uses. (the yellow lines separate the lots).

Green lines show the tax lot lines (general location - not exact).

The permit in question, 95-16518, shows lot 32 as the place of use. You can see that lot 32 is already covered by license 95-7835. Is there another lot receiving water from the system, or at a minimum, has a water line already stubbed to the lot allowing connection?
