

3/18/13

Brockway, Sr., Corey Allen
Jeff P. on phone.

- Jeff agrees with considering what historically was there and give credit for that portion to be credited ~~for~~ against anything new in total.
May consider new normal as to what exists there now with documentation.
- Mitigation required for additional curp.
- Brockway to do survey of existing plus proposed to see if 4.0 is enough for volume of curp. May amend applic if more than 4.0 required.
