Idaho Falls, ID 83402

October 24, 2013

This letter is to protest the proposed change of water right, transfer no. 78862.

The undersigned do not want the creek to be diverted. We are property owners on this property and wish to state our disagreement to this proposal. We as a homeowners association own thirty three acres and this diversion is in the center of these acres.

As homeowners we have enjoyed this creek since 1973 when our homes were built. We have made many improvements to the area and enjoy the natural beauty it affords. We have three bridges across the stream. We enjoy the natural habitat that uses the creek and the water. Diverting this creek would destroy the deer, moose, raccoons, rabbits, ducks, and all other wildlife. It would also destroy our scenic property and values. We hope in the future to possibly use the water for both agricultural watering of our property and the natural asset that it is. We work hard and have spent a lot of time and money on improving this creek and the area surrounding it.

Please do not allow the diversion of the water on our property.

Sincerely, CEDAR HOMEOWNERS ASSOC, PO Box 276, Pocatello, ID 83204

Residents of Cedar Hills Drive, Pocatello, Idaho
