Subject: RE: Your letter of September 18

Mr. Holzhausen,

You can email them or send them by regular mail. Either way will work. We have had some problems with our email lately, so if you choose to send them by email, I would appreciate a second email without attachments letting me know that you sent them. If you send a follow-up email, then I can let you know if I received them or not.

Thank you for your response. I look forward to hearing from you.

Subject: Your letter of September 18

Dear Daniel,

Thank you for your letter, which I received last week. I am putting together the answers to your questions now. Would you like me to send you this information on paper by surface mail? Or is an email submittal satisfactory? The photographs will probably be clearer if I email them to you.

Thank you and best regards,

Gary Holzhausen
