

MEMORANDUM

Date: October 23, 2013
To: Water Right File 33-7198
From: dcarlson
Re: Irrigated Acres

Field exam was completed in 1995. Examiner recommended an irrigation place of use of 322 acres. The proposed place of use included acres in the SWSE of Section 10, which was not included on the permit. The SWSE of Section 10 is BLM ground. Pancheri Inc. was asked to provide documentation of authority to irrigate the federal ground. No evidence was provided.

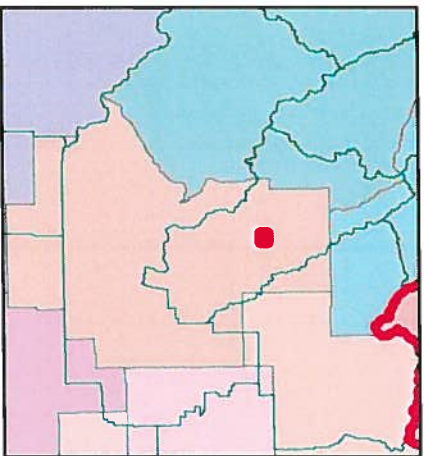

The BLM ground will not be included on the water right license. The total number of irrigated acres was further refined using ArcMap technology and aerial photography. Excluding the BLM ground, the actual number of irrigated acres is 272.5. The remainder of the 1995 field exam is reflected in the water right license.
