RE: Water Appropriation Permit 95-16518

Notice of Intent to Void Permit

Dear Permit Holder:

In December 2012, the Idaho Department of Water Resources (Dept) issued permit 95-16518 authorizing you to develop a right to divert .04 cfs of water from Coeur D'Alene Lake, a tributary of the Spokane river within the NE¼SW¼ of Section 33, Township 50 North, Range 03 West, B.M., for the domestic use of 1 home and .5 acres of lawn in Kootenai County. Under the terms of the permit, the development was to have been completed by December 31, 2013. On September 20, 2013, the Dept. received your Proof of Beneficial Use statement indicating you had completed your development and put the water to beneficial use. However, during the licensing review process, it was discovered that water right license 95-8735 was issued on September 6, 2013 and includes domestic use on the parcel of land permitted under 95-16518. It does not appear that water right permit 95-16518 provides any additional beneficial use that isn't already authorized under license 95-8735

If you believe that permit 95-16518 provides additional beneficial use that exceeds that already authorized under license 95-8735 and that a water right license should be issued to you, please supply supporting documentation that additional beneficial use was developed by December 31, 2013 in accordance with water right permit 95-16518. If I do not receive the requested information from you within thirty days, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under permit 21-7156, you can shorten the voiding process by completing the enclosed relinquishment form and returning it to IDWR.

If you have any questions, please contact me at 208-287-4916.

Respectfully,

for Craig Saxton
Water Rights Supervisor
