RE: Water Right Permit No. 02-10264

Dear Mr. and Mrs. Hendrickson:

We are working on trying to complete a water right license on the above referenced permit. This permit was issued to George and Deb Wilder in July of 2005 for the irrigation of 1 acre from the Snake River. Proof of beneficial use was received in May of 2006 that stated the permit had been developed. We have reviewed this permit along with aerial photography and find that Lot 18, Hidden Valley Estates Subdivision has been irrigated and we can issue a water right license once we determine that there is a pump at the property. We have checked the Owyhee County tax lot records and find that you are the current owners of record. We are going to be out in that area on **Tuesday, October 15th** and would like to stop by the property and verify that you have a pump in the Snake River that is used to irrigate your lot. If you want to be there during this verification, we would be glad to meet with you. If you can't be there, we will try to verify that a pump, or a pump station, is in place so we can license the permit.

In Idaho, a water right permit is considered personal property and only the permit holder of record can assign the permit to another party. If you know how to get in touch with the Wilder's we might be able to get them to assign the permit to you so the license can be issued in your names. Otherwise, we will issue the license in the Wilder's name and you can file a Notice of Change in Water Right Ownership if you wish to have your name on the water right.

If you have any questions concerning this matter, please do not hesitate to contact me at 334-2190.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
