RE: Water Appropriation Permit 75-7655

Request for Information (2)

Dear Permit Holders:

In 2006 IDWR issued permit 75-7655 authorizing the development of a right to divert 0.06 cfs of water from Twelve Mile Creek, within SESE of Section 36, Township 20 North, Range 21 East, B.M., for irrigation use.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that water has been put to beneficial use in accordance with the permit. For your convenience, I am enclosing a copy of permit(s) listed above.

In an attempt to expedite the licensing process, IDWR would like for you to provide the following information regarding your permit:

Point of Diversion Information:	Photographs of the pump and the point of diversion. If pump is in a constructed ditch, the location of the point of diversion where the ditch leaves Twelve Mile Creek If possible, GPS coordinates of pump location – latitude/longitude.	
Pump Information:	Make, Model, Serial Number, and Horse Power of Pump or a picture of the pump plate	
Sprinkler Information:	Size of water line. Size, type, number of nozzles and gallon per minute of sprinklers.	

Permit 75-7655 includes the following conditions:

3 Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the Watermaster suitable control of the diversion.

#4 Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.

Photographs of:	A lockable device attached to the diversion that will provide the Watermaster control of the diversion. If the pump is electric, a picture of the electrical box where a lock can be attached is acceptable.	
	the fish screen on the pump intake or other fish passage restriction device.	

The photographs submitted should be of sufficient number and at sufficient angles in order to confirm compliance with the conditions listed on the permit.

In addition, I have enclosed a map of the identified Place of Use for Permit 75-7655. Based on the map provided and the 2011 NAIP imagery, 2.0 acres of irrigation have been identified. If additional acreage is being irrigated, please indicate where on the provided map and photographs of the additional irrigated acres. Please note that impermeable surfaces such as homes and driveways cannot be included in the irrigated acreage.

You can request that IDWR personnel go into the field to collect this information accompanied by a member of your staff/organization. For this to occur, please contact IDWR with the name, telephone number, and email of your representative and the representative must be available to be contacted and scheduling of the required visit by no later than November 11, 2013. IDWR must also receive the contact information of your representative in a timely manner to perform the field examination by the November 11, 2013 deadline.

Please provide the requested information by November 11, 2013. If I do not receive the requested information or a field exam is not scheduled by November 11, 2013, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code.

If you have any questions, please contact me at 208-287-4938. Thank you for your attention to this matter.

Respectfully,

A handwritten signature in cursive script, appearing to read 'Danielle Favreau', written in dark ink.
