APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works

should they be required now or in the future: The diversion of water is by a concrete collection box at the springs site and conducted through a 4" metal pipe to the DEHAAS + CAIRNS properties. The pipe has been cut and capped off at the end of the CAIRNS property.

- b. Who owns the property at the point(s) of diversion? _____

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? No
If yes, ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

The 2 LAWRENCE properties are the last to receive water from this spring. The water level of this spring has reduced such that it is of no longer use to the LAWRENCE properties. We will use our other water rights to irrigate the property.

- e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

DAVID + VONDA LAWRENCE and DOYLE LAWRENCE wish to transfer their portions of these water rights to the remaining holders, NERLE + HELEN DEHAAS and TERRY + TWILA CAIRNS.

- f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

WATER RIGHTS 67-4152 & 67-14486

IDWR NOTES, SL 5/30/2013

- Abandoning portions of rights will reduce the rights for remaining owners to continue using their portions.
- Alternative to abandoning portions of rights so the rights are not reduced: transfer portions to other property.
- Can use 1 transfer application to change portions of the rights so others can use those changed portions
 - both rights list spring(s) either the same or close together for a common system
 - will remain a common system with fewer users.
- Assume you want to provide all Lawrence portions to remaining owners according to the rights: Cairns, DeHaas, Palmer & Stoneburner. Appears Stoneburner has some form of ownership in 67-14486 from following information in dept. records:

3. mvanbussum 12/14/2006 NOE Ownership
Comment: Per NOE correspondence, David Lawrence stated Dean Stoneburner should be removed from ownership. Mr. Lawrence provided a quitclaim from Dean Stoneburner to Dean Stoneburner and two other parties. Thus, according to this quitclaim, Mr. Stoneburner retains interest in the property. No changes at this time.
- Transfer application fee would be \$200 (additional \$50 ownership change fee to remove Lawrences waived for this unusual scenario).

67-4152

Assume 4 homes for domestic use in 67-4152 since identifies 4 parcels in file notes.

Right lists Palmer, DeHaas, David & Vonda Lawrence, Doyle Lawrence. Assume Palmer now is Cairns place since no Palmer found nearby in county parcel records.

Reduce use to 2 homes not owned by Lawrences: Cairns, DeHaas.

67-14486

Move 4 acres from NESW (David/Vonda) to DeHaas in NWNE & NENW.

Move 4 (?) acres from SWSW (David/Vonda+ Doyle would be 8 acres minus Cairns current portion in SWSW, assume Cairns already has 4 acres there) to Cairns in SWSW & SESW.

Will need written consent from remaining owners listed on rights: Cairns, DeHaas & Stoneburner (or any other current owners if bought from those listed on rights). Assumes Palmer is now Cairns.

Result

Rights not reduced ¹, all Lawrence property removed from rights & those portions transferred to Cairns & DeHaas land.

Transfer Application can vary from standard dept. requirement since not typical situation:

Checklist cover page ~ don't need to label attachments with numbers shown on checklist, ok to label like Map #1 etc.

Part 1B.1 ~ although moving part of rights to remaining owners, ok to check the "all" boxes in this case.

Part 1B.4 ~ use footnotes to show slightly different places of use for each right & to show what remaining owners get. Ok to assume they will use relocated 8 acres of irrigation within their county parcels, 37 & 39 acres respectively. Total irrigation will be limited to 16 acres/year with a limit of 8 acres/year for each of them in their larger parcels. Provides more flexibility this way. They can tell you if they want it recorded different than that, which would also require Map #4 to be revised.

Part 2B ~ portion of change n/a in this case.

¹ Except 67-4152: domestic for 2 homes limited to 0.06 cfs instead of current 0.07 cfs per dept. standards.

Merle DeHaas, Helen DeHaas, Terry Cairns, and Twyla Cairns do agree to the transfer of water rights
#67-4152 and #67-14486 from David Lawrence, Vonda Lawrence, and Doyle Lawrence.

The parties also accept the spring box and pipeline in "as-is" condition.
