Subject: RE: Water Supply Bank - Lease Application Information 22-14026 Summers

Roger,

Just wanted to let you know I received this. Pam is on vacation. I will forward it to Sandy, and you can mail us the original. I am sure we can make it work. Most likely, we will sign and keep the original. The one sent to Summers will be a copy with an original IDWR signature.

Pam,

I was able to get my copy of the lease agreement signed last night. Summers are in harvest and have recently moved into a new home and had not received or found the original letter agreement that was sent to them. I have scanned it and have attached it and can send in the mail or take over to IDWR eastern and have them send it. What is your desire? I realize that 14 days ends on Monday.

Let me know.

r

Roger,

Looks like all these documents are good. I am able to open them all & will print them out for the water right file. Maybe there was a hiccup in the internet yesterday.

Pam,

Do these come thru?

Subject: Water Supply Bank - Lease Application Information 22-14026 Summers

Roger,

I understand you are having issues emailing information to Sandy Hemenway regarding a Water Supply Bank Lease application for Summers. I am sending you directions on how to leave information on our FTP site. You can leave whatever information you were emailing with a letter of explanation. We will "pick it up" and use it for review. Let me know if you have any troubles using the site, and when you have successfully posted the information.

For the general public to put files on the server:

Using Internet Explorer 7.0 or 8.0 to put files on the server for use by IDWR employees:

1. Go to <ftp://ftp1.idaho.gov>
2. Login using the account name idwrgen and the password Rg7d952O (capital O, not the number 0)
3. Click "View" then click "Open FTP Site in Windows Explorer" This will open a new window.

4. Log in again using the same user name and Password
5. The user can click "Incoming" to add files for IDWR employees. (Note: they will not be able to see any files in this folder other than the ones they add.
6. The user can also click "Outgoing" to get files from IDWR. They will be able to see and download ALL of the files and folders here but will not be able to delete them.
7. The user can either drag and drop, or cut and paste files from their computer onto the server.

I apologize for any confusion with the email issues. Once the information has been received on our end from the FTP site, it will be reviewed with the lease application proposal. Sandy will contact you if we have any further questions.

Pam
