RE: Water Right 84-10636 (Split into 84-12251 and 84-12252)

Dear Mr. and Ms. Schulz,

I am contacting you because it appears that you might own property that was previously owned by Don Imel. My research indicates that Don Imel attempted to record a water right in connection with development of a domestic use on a property that has been split and is now owned by yourself and the Mooers family. Previous to splitting the property, Mr. Imel filed a claim in the Snake River Basin Adjudication (SRBA) for domestic use for one home. The problem is that the claim he filed described a place of use that does not match your or the Mooers property. That place of use description was carried through the court process to decree. I am enclosing a copy of a letter I recently sent to the Mooers family that explains in detail the history of right 84-10636.

There are several options that you could take to record a water right on your property that are outlined in the enclosed letter.

I know this is lot of information coming to you out of the blue. Please look over the information and then contact me with any questions and I will be more than happy to talk it through with you.

Respectfully submitted,

Craig L. Saxton
