**Subject:** Withdrawal of protest of Transfer No. 77852

To whom it may concern,

It appears that Mr. Clen Atchley changed his plans for point of diversion on his property, on the north side of river, and consequently his plans to span the river with a pipeline toward the south, that would have harmed the property and take away from the beauty of the river. Having no further argument, I formally withdraw my protest of his application of transfer No. 77852. I do this unconditionally.

Thank you,

Alan Baum
