If approved, this permit authorizes the construction or modification of a well subject to the following conditions:

Drilling Permit No.: 870306
Receipt No.: S033565

Well ID: 436435
Printed: 10/18/2013

Metal Tag No.: D0065038
Approved Date: 10/18/2013

- 1) This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one(1) year from the approval date for completion of the well unless an extension has been granted.
- 2) This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
- 3) The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit and the well ID tag at the drilling site.
- 4) Approval of this drilling permit does not authorize trespass on the land of another party.
- 5) This permit does not constitute other local, county, state, or federal approvals which may be required for construction of a well.
- 6) This drilling permit does not represent a right to divert and use the water of the State of Idaho. If the well being drilled is associated with approved water right(s) use of the well must comply with conditions of said water right(s).
- 7) If a bottom hole temperature of 85°F (29.44 Degrees C) or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.
- 8) If the depth of this well exceeds 500 feet or the well is in an area known to have Low Temperature Geothermal water, bottom hole temperature must be measured and recorded on the Driller's Log, and reported on the Well Driller's Report.
- 9) Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.
- 10) Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Idaho Department of Water Resources for reconsideration, pursuant to Section 67-5243, Idaho Code.
- 11) The stainless steel I. D. tag must be securely and permanently attached to the well casing by the Driller upon completion of the well, and prior to removing the drill rig from the drill site and must remain permanently attached above ground level for the life of the well. The well tag shall be attached by welding at least 3 sides or using four (4) stainless steel, closed-end pop rivets.
- 12) Any well being replaced by a new well shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.
- 13) As this is a replacement well, the well being replaced shall be abandoned by a plan approved by the Dept. which meets State minimum construction standards 2,12,1.
- 14) The use of water from this well is for Stockwater purposes and shall not exceed 13,000 gallons per day.

This permit is Approved on 10/18/2013.

MEMO

FROM: Allen Merritt

DATE: 10/18/2013

TO: D0065038

SUBJECT: Issuance of Drilling permit to replace an existing stockwater well.

This day Ted Higley called regarding issuance of the drilling permit to replace an existing stockwater well in the SENW S36, T13S, R 26E. Staff had located water right 43-10269 in the name of Hank Higley that was for a well further south for use on the neighbors property and was holding up issuance of the drilling permit until a transfer or something was filed.

Mr. Higley indicated that he had a lot of trouble to get the driller out there to replace the well and was concerned that the driller would leave on another job if he did not start because of some sort of paper work issue.

I looked over the situation and am not convinced that 43-10269 is associated with the well and decided to treat the well as an unrecorded stockwater right and allow the replacement of the well. I told Mr. Higley if right 43-10269 was intended to cover this well they needed to file a transfer in the future to correct the record but I would allow drilling of the replacement well at this time.
