Dear Mr. Mastre:

You, until recently, owned some land in northern Idaho on Cabin Creek tributary to Cow Creek and we are trying to determine what water rights exist on that property.

We are particularly interested in the land that was sold to Mr. Gregory Smith, which you were irrigating by a sprinkler system. You apparently sold the sprinkler system before you sold the land to Mr. Smith. It is important to know what your intentions were for the irrigation of the land from which the system was removed. Did you intend to sell the land and system separately and let the purchaser of the land purchase his own system and continue to use the water under the water right you had established?

We are now preparing the final recommendations for the decree of the waters of Cow Creek and tributaries and, therefore, would appreciate a statement of your intentions as far as the water right was concerned when you sold the sprinkler system and the land.

If you have any questions, please let me know.
