Re Permit To Appropriate Water No. 63-33205

Dear Middleton Bus LLC:

The permit referenced above was issued for 0.80 cfs for a fire protection use from ground water. This letter is to request that you call me to schedule the field exam for this permit. A field exam is required by Idaho law before a license can be issued, at which time it becomes a water right. The license is the end product needed for continued water use.

Additionally, please have available at the exam someone familiar with the system and its construction, as well as the following documentation:

- 1 – pump and motor specs;
- 2 - the depth at which the pump is set;
- 3 – a pump curve;
- 4 – the results of the most recent pump test; and,
- 5 – an as-built schematic of the fire protection system.

Please call me as soon as possible at 208.334.2190, to set an appointment for the exam. Failure to respond to this letter request **by September 30, 2013**, may result in the permit being voided or a license issued for less than the permitted amount. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
