Split per request & deed
source groundwaterER says maybe make app. for permit if have separate
pump

POD may be incorrect

deed & parcel put POI in NWSE; POD SESW

→ ER says undo O/C, refund fee & send
app. for permitSituation

2 homes

separate ownership (Imel & Mooers^{et al})

unknown # pumps

splits did not get a limiting condition

note says "POI is not in the QR described on the WR.

The shape is in the correct QR per the metes
& bounds of the Warranty Deed."this was an AJ claim but no claim record available online
may need to look @ memo 15deed says conveys 1/2 of WR & they submitted c/o, so we have
intent to split the water right & can't keep it together
can't find AJ record online → probably no field examTo doincorrect — Determine if POD/POI incorrect → should be NWSE
Determine if 1 pump or multiple — LMM Craig 2/5 12:00 pm
Why no 13K gpd combined limit put on splits?

6/24/2010

phone # for Don Imel has been disconnected

new holder's info does not include phone #

needs letter → where is well?

How many pumps?

7/12/2010

phone convo. w/ Linda Mooers

faxed map showing location of well; it is in Sec 3 NWSE
POD & POI incorrect3 houses share same pump 2 cabins & a modular home
Imel is no longer an owner; Schultz owns modular home
address of their place is 37237 Hwy 11, Pierce
these are all part-time occupied vacation homes
