RE: Withdrawal of Protest against Application for Permit No(s). 94-8142

Dear Applicant(s):

The Department of Water Resources has received withdrawal(s) of protest against the above referenced application. Withdrawals have been received from the following protestants:

1) BUREAU OF LAND MANAGEMENT

The application does not have any remaining protests; therefore, the department will take the steps necessary to bring the application to a final resolution.

Please contact this office if you have any questions regarding this procedure. Information about water rights and other matters administered by this agency is also available on the Internet at www.idwr.idaho.gov.

Re: Settlement of Protested Water Right Application No. 94-8142
Murray Water Works

Dear Mr. Price:

For your information, attached is a copy of the final permit for the Murray Water Works, that includes the removal of government lots within the place of use as per the settlement agreement. Condition #5 also states land within the place of use does not include federal public lands.

As per the Settlement Agreement, this should resolve BLMs protest. If you have any questions, feel free to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin
Program Manager, Northern Region

Subject: Draft Permit: 94-08142, Murray Water Works
Attachments: 94-08142_Murry Water Works_Protest_map-as-filed.pdf

Keith,

RE: Draft Permit: 94-08142, Murray Water Works

I received your letter dated 03-20-12. Thank you very much for the opportunity to review the draft permit.

Proposed Condition #5 is an acceptable version of IDWR's standard Condition #U42, which is used to clarifying legal land descriptions that contain both public and private land to make it clear that only private land is intended, however the Place of Use (POU) still includes federal land. All of the POUs described as "lots" in the draft permit describe land "entirely" owned by the United States (see attached map), in other words, there is no private land within these lots. Private land resides within the un-lotted portions of the nominal QQs, therefore the use of lot descriptions has the effect of completely excluding private land.

All of the POUs need to be defined as nominal QQs (i.e. without lots) as shown below. These nominal QQs contain both public land (as lots) and private land (un-lotted portion of the QQ), therefore Condition #U42 or an equivalent (such as your proposed Condition #5) provides the necessary clarification that only non-federal land is intended.

Fredric W. Price
Water Rights Specialist
(208) 373-3831

POUs Should Be Described As Follows:

T49N, R05E, S05, NENW
T49N, R05E, S05, NWNW
T49N, R05E, S05, SWNW
T49N, R05E, S05, SENW

T49N, R05E, S06, NENE
T49N, R05E, S06, NWNE
T49N, R05E, S06, SENE

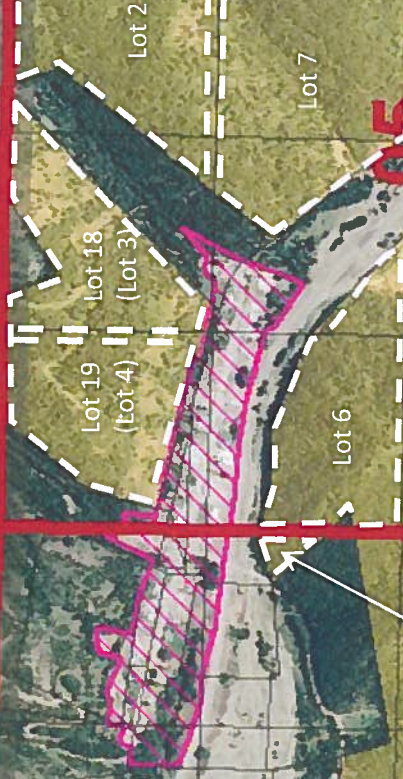

94-08142, Murray Water Works

50N 5E

49N 5E

49N 4E

The Claimant claimed the following nominal quarter quarters for their municipal right: NENE, NWNE, SENE, S06, NENW, NWNW, SWNW and SENW, S05, T49N, R05E. A clerical error may be present in IDWR's data entry details. IDWR's representation describes the POU as lots (Lot 3, Lot 4, Lot 6, Lot 7, of S05, and Lot 7 of S06, T19N, R05E) that are entirely owned by the BLM. The digital boundary submitted by the Claimant does not include the lots referred to in IDWR's electronic representation.

Re: Settlement of Protested Water Right Application No. 94-8142
Murray Water Works

Dear Mr. Price:

The Idaho Department of Water Resources is in receipt of the settlement agreement between the US Bureau of Land Management and the Murray Water Works for protested water right application No. 94-8142.

Enclosed for your review and comment is a draft permit which contains the condition specified in the settlement agreement that should resolve the protest. Pay special attention to condition No. 5.

If this satisfies the US Bureau of Land Management's protest, please let me know in writing so the permit can be finalized. If you have any questions, feel free to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin

DRAFT**Permit to Appropriate Water****DRAFT**

NO. 94-08142

Priority: June 22, 2011

Maximum Diversion Rate: 0.20 CFS
Maximum Diversion Volume: 59.9 AF

This is to certify, that MURRAY WATER WORKS
410 VALLEYVIEW RD
KINGSTON ID 83839

has applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
MUNICIPAL	01/01 to 12/31	0.20 CFS	59.9 AF

LOCATION OF POINT(S) OF DIVERSION:

GROUND WATER, NE1/4NE1/4, Sec. 6, Twp 49N, Rge 05E, B.M., SHOSHONE County

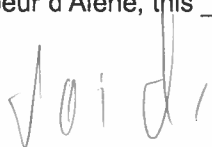

PLACE OF USE: MUNICIPAL

Twp	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
49N	05E	5					X	X	X	X									
49N	05E	6	X	X		X	L3	L4	L6	L7									

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2017**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
5. Place of use is within the service area of the Murray Water Works as provided for under Idaho law. The place of use is generally described as located within Sections 5 and 6 of ,Township 49 North, Range 5 East and does not include federal public lands.
6. Prior to or in connection with the proof of beneficial use statement to be submitted for municipal water use under this right, the right holder shall provide the department with documentation showing that the water supply system is being regulated by the Idaho Department of Environmental Quality as a public water supply and that it has been issued a public water supply number.
7. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
8. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
9. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this _____ day of _____, 20____.

OF THE STATE OF IDAHO

RECEIVED
MAR 09 2012
IDWR / NORTH

IN THE MATTER OF APPLICATION)
FOR PERMIT NO. 94-08142 IN THE) **SETTLEMENT AGREEMENT**
NAME OF MURRAY WATER WORKS)
)
)
_____)

The United States of America (hereinafter "Protestant") and Murray Water Works (hereinafter "Applicant") agree and stipulate to resolve the United States Department of Interior, Bureau of Land Management (hereinafter "BLM") protest of Application for Permit No. 94-08142 as follows:

WHEREAS, the data entry of the application for permit is inconsistent with the application filed. The data entry of the place of use was described on BLM land instead of private land as intended by the application. The Places of Use ("POU") describe legal land descriptions Lot 3 (NENW), Lot 4 (NWNW), Lot 6 (SWNW), Lot 7 (SEnw), S05, and Lot 7 (SENE), S06, T49N, R05E, which is land entirely owned by the United States.

WHEREAS, the BLM seeks clarification of the POU element to clarify that nominal quarter-quarter descriptions containing both private and public land are intended to only define private land; and

WHEREAS, the Protestant and the Applicant wish to resolve their dispute regarding this application for permit,

THEREFORE, The Protestant and the Applicant stipulate and agree as follows:

1. The POU shall be described as nominal quarter quarters and a condition of approval shall be included under the POU element which reads"

NENW, S05, T49N, R05E
NWNW, S05, T49N, R05E
SWNW, S05, T49N, R05E

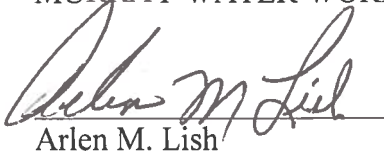

SENW, S05, T49N, R05E
NENE S06, T49N, R05E
NWNE S06, T49N, R05E
SENE, S06, T49N, R05E

“Place of use does not include federal public lands.”

2. The parties agree and stipulate that if the conditions of approval described above are adopted by the Idaho Department of Water Resources (“IDWR”), then said conditions resolve BLM’s protest by clarifying the location of the POU such that it is clear only private land is intended. The Protestant hereby withdraws its protest of Application for Permit no. 94-08142 pursuant to the terms of this agreement.

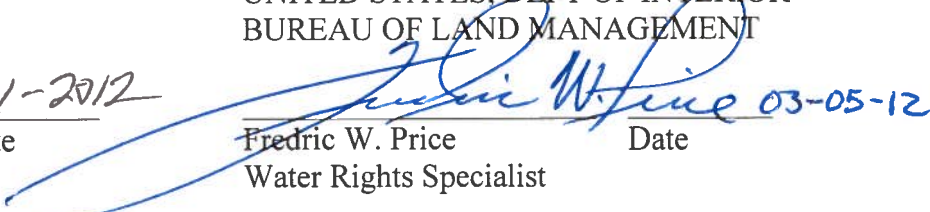

Respectfully submitted,

RE: Application for Permit No(s). 94-8142

Dear Applicant(s):

Enclosed is a copy of a protest(s) filed against the issuance of Permit No(s). 94-8142. As part of the application process, the following options are available for the resolution of contested (protested) applications:

- Direct contact with the protestant(s) to determine the nature of the protest(s) and to attempt to resolve the protest. Sincere conversation between the parties prior to initiation of formal proceedings can often resolve protest(s).

- Formal proceedings administered by the department pursuant to the Department's Rule of Procedure (IDAPA 37.01.01). A pre-hearing conference identifies the protestant's concerns and reviews the resolution possibilities with the parties. If the concerns cannot be resolved, a formal hearing will be scheduled.

- Mediation through a certified professional mediator can reduce costs and time that are associated with formal proceedings, present the opportunity to address non-water concerns, provide influence over a final settlement, and fast track the processing of the application if a mediated agreement is reached. If you are interested in this option, please contact our office for details.

Please consider with the protestant the best option(s) for resolution of the contested application and forward your choice to the Department's regional manager. If no response is received within a few weeks, you may be notified that a pre-hearing protest conference will be scheduled.

You may contact this office if you have any questions regarding the procedure discussed in this letter or additional information about water rights and other matters administered by this agency is available on the Internet at www.idwr.idaho.gov.

Sincerely,

Keith E. Franklin
Interim Program Manager

Enclosure(s) Pre-Hearing Conference Procedures
Copy of letter to applicant.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF PROTEST
94-08142

RECEIVED

AUG 22 2011

DEPARTMENT OF
WATER RESOURCES

August 22, 2011

1. Matter being protested

Application for Permit No. **94-08142** filed by Murray Water Works.

2. Name of protestant

United States Department of the Interior
Bureau of Land Management
Idaho State Office
1387 South Vinnell Way
Boise, Idaho 83709-1657

3. Protestant's Representative for service (if different than protestant)

Fredric W. Price (contact person)

4. Service mailing address

same as above

5. Service telephone no.

(208) 373-3831

6. Basis of protest (including statement of facts and law upon which the protest is based).

Murray Water Works filed an Application for Permit that describes the Place of Use as nominal quarter quarters. IDWR's data entry of the application for permit is inconsistent with the application filed, in that it represents these places of use as "lots." The data entry of the place of use as lots, describes land entirely owned by BLM (see below), instead of private land as intended by the applicant. These Lot descriptions describe federal land surrounding the private land sought by Murray Water Works. Murray Water Works is not authorized for Municipal purposes on BLM land.

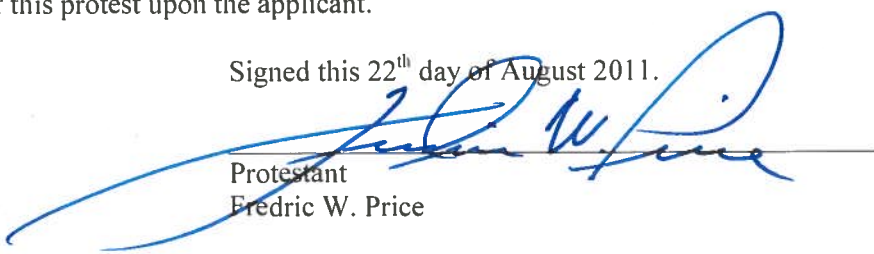

Lot 3 (NENW), S05, T49N, R05E (BLM)
Lot 4 (NWNW), S05, T49N, R05E (BLM)
Lot 6 (SWNW), S05, T49N, R05E (BLM)
Lot 7 (SEnw), S05, T49N, R05E (BLM)
Lot 7 (SENE), S06, T49N, R05E (BLM)

7. What would resolve your protest?

The POUs that are described in terms of Lots in IDWR's data entry need to be described as nominal quarter-quarters instead, however the nominal quarter-quarter descriptions describe lands containing both private and public land. BLM's protest would be resolved by describing the places of use in terms of nominal quarter-quarters and by the inclusion of a remark which makes it clear only private land is intended: "Place of use does not include federal public lands."

I hereby, acknowledge that if I, or my designated representative, fail to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 22th day of August 2011.

Protestant
Fredric W. Price

RESEARCH DESIGN

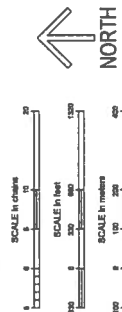

This plot is only a graphic display of the Bureau of Land Management's (BLM) Record of Title and Township survey data. Records hereon do not reflect title changes which may have been affected by lateral movements of river or other bodies of water. Refer to cadastral surveys for official information.

The notations shown on withdrawals represent the last action taken, but may not be the effective date. See the Historical Index for the date of original withdrawal order.

No warranty is made by the Bureau of Land Management. The accuracy, reliability, or completeness of these data for individual uses or purposes is the responsibility of the user. The data are not to be used for any purpose other than that for which they were collected.
