Sandy,

I have attempted to email you the requested information three times today. Two of those attempts I received an error response that indicated that your email address had not accepted them. Hence, I reduced the memory requirement of one of the map documents and resent them again requesting that you respond that you had received them. I have received NO SUCH RESPONSE.

I realize that we are all very busy but with your threat of, "returning the application to be resubmitted" it causes me great concern whether or not you have received and whether or not we have met your timeliness requirement. Please let me know if you got it or not so that I may attempt some other arrangement to deliver them to you.

warm regards,

Roger,

Was all the information requested obtained? If not, we will return the application and it can be resubmitted when all information is available (it will need to be resubmitted on a new form).
