Krista:

I have been assigned the above referenced application for review and processing. It appears to be completed correctly except for item 12 (time required for completion of works). This item on the application is for the time needed to develop the permit, once it is issued. The Department allows from one to five years for completion. In this item you have entered "na" since the well has been drilled and is in use. However, we need to enter between 1 and 5 years in our data base. Please send me an e-mail that states you request at least one year for development so I can proceed with my review. Thank you for your attention to this matter.

Sincerely,
