Carl,

Here are the new shapes I have created for your water rights.. look them over and let me know your thoughts. I have not run the intersect on the acres yet to see how they match up with the old acres. I wanted to make sure the shape matches what you have in mind. If I do not hear from you today I will be in touch next week sometime.

MEMORANDUM

Date: September 5, 2013
To: Transfer 78810 File
From: Jana Reeder
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes shifting acres on an existing farm to reflect current irrigation practice. The farm is located approximately 15-15.5 mi. due west of the city of Minidoka. The existing well will be used to divert 1.6 cfs and 320 AF for the irrigation of 80 acres in the new 203 acre permissible place of use.

The area associated with the transfer is located within Water District 130 so watermaster comments will be needed. Recommend no advertise.

- **Authority to File:**
The applicant is listed as the current owner of the right involved with the transfer according to IDWR records. In addition, a copy of the warranty deed was submitted with the application.
- **Water Right Validity:**
The right involved with the transfer has been decreed in the SRBA as a valid right. Recent aerial photography indicates that the lands involved with the transfer have been irrigated in recent years.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy the Local Area:** No issues anticipated.
- **Effect on Agricultural Base of the Local Area:** No issues anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
