Re: Application for Water rights to appropriate the Public Waters of the State of Idaho:
Water Right Number 98-7791.

The amendment that you sent to the department on May 2, 2013 was missing the NW/SW quarter on the place of use location. I missed this when I developed your amendment for water right 98-7791. I have corrected the place of use on the new amendment that is attached to this letter. Please review the new amendment and sign. There is no fee for the correction and thank you for your help on this.

Once the department receives amendment of permit, processing of the water license can continue. If you have any questions, please call me at 208-762-2800 or email me at eric.davis@idwr.idaho.gov Please respond within 15 days.

Sincerely,

ERIC DAVIS
Senior Water Resource Agent
Northern Region

RE: Water Right Permit No. 98-07791

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

☐ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at 208-762-2800.

Sincerely,
Eric Davis
Senior Water Resource Agent
Northern Regional Office
