Re: Request to Reinstate Water Right Permit No. 37-22744
Project No. 536-03-2013

Dear Allen,

Water Right Permit No. 37-22744 is a domestic and stockwater permit originally issued to Ms. Lita West on her property outside of Carey, Idaho. The permit was approved by IDWR in August 2012 with a proof deadline on August 1, 2013. In the spring of 2013, Ms. West put her ranch of the market and it was sold to Holly Farms, LTD in May 2013.

Unfortunately, the proof of beneficial use was not submitted timely, because the property and the permit were undergoing a change of ownership. IDWR received the assignment of permit form on July 22, 2013 to assign the permit from Lita West to Holly Farms. It has been less than 60 days since the proof deadline and we request to have the permit reinstated. Detmar Holly, one of the general partners of Holly Farms, LTD has signed the proof of beneficial use form.

If you have further questions, please feel free to contact me.

Sincerely,

G. Erick Powell, Ph.D., P.E.
