b. Who owns the property at the point(s) of diversion
The land where the new point of diversion is located is owned Rodney Hubsmith. The canal company has a right of way where the diversion will be located.
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
The land where the new point of diversion is located is owned Rodney Hubsmith. The canal company has a right of way where the diversion will be located.

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
No, ☒ If Yes, ☐
Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien:
It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
No change. Application only proposes changing service area boundary. No overall increase in number of irrigated acres within the service area boundary will occur.

e. Describe the use of any other water right(s) for the same purpose or land, or same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
All Big Wood River Canal Company irrigation rights have been included in this transfer.

f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes	No

2. The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
3. Place of use does not include federal public lands unless authorized in writing by the managing federal agency.

Conditions/Remarks:

4. This right is limited to the irrigation of 74,000 acres within the authorized place of use in a single irrigation season.
5. Water under this right is deliverable or may be initiated at the time when the Big Wood River near the Glendale Bridge is dammed and all flow of the river can be conveyed into the Bypass canal heading within the NW1/4SE1/4SW1/4 Section 12, T1N, R18E. The amount of water deliverable under this right is proportionate to the prorata share of senior priority water (prior to 6/15/1883) deliverable in the Baseline Bypass and Extension Bypass system. This right is curtailed when all priority rights through the Baseline Bypass and Extension Bypass system are futile or not called for during the irrigation season.
6. The actual volume of water authorized under this right is limited to the volume of water saved during the non-irrigation season based on the number of days water is diverted into the Bypass Canal.
7. Pursuant to a call in times of scarcity, this right is senior to all other rights that did not result from developed/saved water in the Big Wood River, as established by and subject to the provisions included within In Re Upper Big Wood River Water Users Assn, et. al., plaintiff vs. S. H. Chapman, Watermaster, Defendant in the District Court of Lincoln County dated 8/28/1922.
8. The points of diversion located within the NESENW and Government Lot # 2 (NESWNW) of Section 31, Township 5 South, Range 15 East are limited to a combined maximum diversion rate of 0.41 cfs.
9. Water diverted from the Big Wood River downstream of the point of injection listed on this right within Government Lot # 2 (NESWNW) Section 31, Township 5 South, Range 15 East may include water originally diverted from the Big Wood River and conveyed through the Little Wood River.
10. Water diverted from the NESENW of Section 31, Township 5 South, Range 15 East, under this right may include water diverted from the Big Wood River in exchange for the injection of Big Wood River water that is conveyed through the Little Wood River and then injected from the Little Wood River into the Big Wood River within Government Lot # 2 (NESWNW) Section 31, Township 5 South, Range 15 East.
11. Rights 37-867, 37-895 and 37-20733 are limited to a total storage of 191,500 acre feet.
12. Rights 37-867, 37-870, 37-895, 37-13043, 37-13112, 37-13113, 37-13114, 37-13116, 37-20733, 37-21401, 37-21402, 37-21403, 37-21404, and 37-21405 when combined shall not exceed the irrigation of 74,000 acres.
13. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37 and 37M.
14. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
15. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
16. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
17. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

I.
FINDINGS AND CONCLUSIONS

1. On October 5, 2012, a *Special Master's Report and Recommendation* was filed for the above water rights. No Challenges were filed to the *Special Master's Report and Recommendation* and the time for filing Challenges has now expired.
2. The above-captioned water rights are for an irrigation purpose of use and satisfy one of the following statutory criteria: (1) used in conjunction with an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more; (2) the place of use for the water rights is located within an irrigation district organized pursuant to the laws of the state of Idaho; or (3) the water rights are for an irrigation project developed by an association, company, corporation or the United States to divert and deliver or distribute surface water under any annual charge or rental for beneficial use by more than five (5) water users in an area less than twenty-five thousand (25,000) acres.
3. Effective July 1, 2002, the Idaho Legislature approved the use of a Geographic Information System (GIS) for describing the place of use (digital boundary) for water rights meeting the above-stated criteria. See I.C. §§ 42-219(2)(2003) and 42-1411(2)(h)(2003). The

GIS mapping technology allows the geographic area encompassing the place of use for a water right to be particularly identified and visually displayed in a map overlay format through the aid of computer technology. In incorporating a digital boundary into a partial decree, the electronic or digital data is what is actually decreed as opposed to the visually displayed map ultimately generated from the data. The data is stored on a CD-ROM. The Court finds that the GIS mapping technology maintained by IDWR complies with the standards for spatial accuracy set forth in I.C. § 42-202B (2)(2003). *See Notice of Filing Affidavit of Michael Ciscell Re: Digital Boundary, filed October 17, 2003.*

**II.
ORDER**

1. Therefore, IT IS ORDERED that the above-captioned water rights are hereby **decreed** as set forth in the attached *Partial Decrees Pursuant to I.R.C.P. 54(b)*.
2. IT IS FURTHER HEREBY ORDERED that the data comprising the digital boundary shall be stored on a CD-ROM medium, which shall be issued in duplicate original. The SRBA District Court will retain one original together with the original *Partial Decrees*, and IDWR will retain the other original. The map depicting the place of use attached to the *Partial Decrees* is intended for illustrative purposes only.
3. IT IS FURTHER HEREBY ORDERED that upon request, the claimant can obtain a copy of the CD-ROM from IDWR at no cost, although GIS software will still be required to access the data. Subsequent administrative changes to the place of use shall also be stored in a digital format and kept on file and maintained by IDWR. IDWR shall maintain all computer software and/or hardware necessary for reducing the data to a usable format that is accessible to the general public, including access through the IDWR Internet website (www.idwr.state.id.us) or its successor Uniform Resource Locator (URL).

MEMORANDUM

Date: September 10, 2013
To: Transfer 78703 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application proposes to add an additional point of diversion from the Little Wood River and change the place of use by adjusting the authorized service area boundary for irrigation rights owned by the Big Wood Canal Company. The additional point of diversion from the Little Wood River is located approximately 6.5 miles north and 10.5 miles east of the center of Shoshone. The application proposes limiting the diversion rate from this additional point of diversion to no more than 4.0 cfs and the associated filing fee was based on this amount. Therefore, a condition will have to be implemented limiting the diversion from the additional point of diversion to no more than 4.0 cfs. The service area boundary adjustment consists of adding approximately 200 acres located approximately 5.5 – 6.0 miles north and 9.5 – 10.25 miles east of the center of Shoshone. According to the manager of the Big Wood Canal Company, this land was missed during the SRBA. The rights involved with the transfer are diverted from the Little Wood River or originally diverted from the Big Wood River and then injected into and rediverted from the Little Wood River. So water master comments will be solicited from the water district 37/37M water master.

- **Authority to File:**
The applicant, Big Wood Canal Company, is listed as the current owner of the rights involved in the transfer.
- **Water Right Validity:**
The rights involved with the transfer were decreed in November 2012.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No negative impact anticipated. Application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
