Hello Mr. Franklin,

Our intent is to apply water to a prior wetland without impoundment, only to restore what is there now. Also our intent is to provide a beneficial use for wildlife (waterfowl, moose, elk) habitat.

Mr. Berkenkamp,

The Idaho Department of Water Resources is currently reviewing your application for a new water right and has a question. Is your intent to just apply irrigation water to land or to also impound water for wet land purposes? If the project to restore wet lands is to impound water/create a pond, a different application will be needed. Please let me know at your earliest convenience.

Thank you.
