Notice of Intent to Void Permits

Dear Permit Holders:

The Department of Water Resources (IDWR) is reviewing permits listed above so that we can issue licenses for the uses developed. Between June 27 and November 1, 2012, IDWR requested additional information from the United States Bureau of Land Management (BLM) in order to complete the licensing process. Generally, IDWR allows 30 day for the permit holder to supply the necessary information. Due to the number of your permits, IDWR granted significant additional time for the BLM to supply the information.

At this time, IDWR has not received any follow-up information or contact regarding these permits.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water within the development periods authorized by your permits, licenses cannot be issued. Once the development period authorized by your permits expires, your permits cannot be retained to cover future development of the resource.

If you believe water right licenses should be issued for one or more of the permits listed, please supply the information requested in the table attached called "Table of Water Permits" to demonstrate that you established a beneficial use of water in accordance with the permits. The online link to the permit information has also been provided in the table "URL to permit information" for your convenience.

You can request that IDWR personnel go into the field to collect this information accompanied by a member of your staff/organization. For this to occur, please contact IDWR with the name, telephone number, and email of your representative and the representative must be available to be contacted and for scheduling of the required visits within thirty (30) days. IDWR must also receive the contact information of your representative in a timely manner.

If I do not receive the requested information from you within thirty (30) days, I will take action to void your permits under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under one or more of the permits listed, you can shorten the voiding process by completing the enclosed relinquishment form for each permit affected and returning it to IDWR.

If you have any questions, please contact me at 208-287-4800.

Respectfully,
