Mr. Lloyd,

Attached are five documents that should give you an idea of the history of this matter before the agency. You are certainly entitled to review and copy the entire file should the need arise. As we discussed over the phone, there has been no filings in this case since July 19, 2006. The last activity was a discovery dispute to depose an expert witness who has since died. Please let me know no later than Monday July 29, 2013 whether you have an interest in filing updated ownership information with the agency and pursue this matter or whether you have no objection to the matter being dismissed. Please call me at (208)287-4812 should have any questions or would need additional documents.
