Subject: IDWR Contested Case

Mr. Lloyd,

On July 15, 2013 I sent you several documents by email to inform you about an old lingering contested case before the Idaho Department of Water Resources ("Department"). I hope that you had the opportunity to review the matter and decide what course of action you intend to take. As we discussed earlier over the phone, there has been no filings in this case since July 19, 2006. The last activity was a discovery dispute to depose an expert witness who has since died.

Please let me know no later than Monday August 19, 2013 whether you intend to file updated ownership information with the agency and pursue this matter further. Failure to file the ownership update and provide the Department with a documentation of your intentions by the August 19, 2013 deadline will result in the Department initiating an order dismissing the contested case. Please call me at (208)287-4812 should have any questions.

John Homan
Deputy Attorney General
