

MEMORANDUM

Date: September 3, 2013
To: Transfer 78744
From: Blake Jordan
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to add points of diversion for water rights 23-7141 and 23-7173. This transfer will also change a point of diversion for water right 23-7141. Lakeview Homeowners Association is seeking to drill a new well to replace an existing well (23-7141) which pumps a high sulfur content. The new well will be located in Lot 23, Blk. 1 of the Lakeview Estates Subdivision. The applicant also seeks to add two existing wells and the proposed new well to water rights 23-7141 and 23-7173. Historically there have been three wells that the homeowners association has utilized to provide water to the subdivisions. Only two of the three wells are currently listed under the water rights. This transfer will add the other well that is currently being used.

Authority to File:

The applicant is the current owner of water rights per IDWR record. The applicant provided well easement agreements.

Water Right Validity:

Licenses for these water rights were issued in 2012. Forfeiture is not an issue for these domestic water rights.

Injury to Other Water Rights:

These water rights are not regulated by a water district and lay in the non-trust area. The new point of diversion will be located in Lot 23, Blk. 1 of the Lakeview Estates Subdivision. This transfer was advertised and there are no protests. No injury issue identified.

Enlargement of Use:

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
