Subject: Water Right 63-3597B – Water Bank Application

Dear Pam,

Enclosed on behalf of Mark and Susan Tracy, is a water bank lease application for a 6-acre portion of water right 63-3597B. We previously submitted this application with the licensing exam for water right 63-11773 in September, 2012. Because the two water rights partially overlap each other, the Department had concerns about enlargement. As a result, the lease application was returned and we were asked to re-submit it upon final licensing of permit 63-11773 (see attached email correspondence from Monica). Now that 63-11773 has been licensed, the six acres being submitted to the water bank under water right 63-3597B are clearly not overlapped with the acres authorized under water right 63-11773.

SPF paid for the original lease application with check No. 7140 per receipt No. W040569. Monica stated in the attached email that there would not be a new application fee for the re-submittal.

Please let me know if there are any questions. Thanks Pam.

Sincerely,

A handwritten signature in black ink, appearing to read "Lori Graves".
