underground gated pipe main line o o o o o

We use portable gated pipe and sprinkler main line. These are change in places of use year to year.

Transfer Map 78438 (attachment #7A/B)

Attachment number one:

The reasons we are asking for these changes are.

1. To consolidate six water rights into one.
2. Establish two points of diversion for the new right.
3. Transfer water from ground not farmed in the area covered by existing water rights to ground that is farmed.

With two points of diversion this will make the delivery system more flexible and give us options to make improvements to our system which will make it more efficient. There will be no new or increased acres added.

Attachment number two:

Our present diversion system consists of two vertical pumps, at the upper diversion site, a turbine for sprinkler irrigation and an impeller type for flood irrigation. At the bottom diversion site we have a centrifugal pump for sprinkler irrigation.

We will put in the main lines on the output side of the pumps fittings that will enable the flow meters to be installed. If it becomes necessary to shut down the system the control panels can be shut off and locked, or Idaho Power can pull the fuses at the transformer.

PROPOSED CHANGE OF WATER RIGHTS

Black Mesa Farms LLC of PO Box 82, Glens Ferry, ID, 83623, filed Application No. **78428** to transfer two water rights with 1963 and 1965 priority dates from the Snake River totaling 16.76 cfs. The purpose of the transfer is to authorize irrigation for purposes of preparing lands for planting and irrigation the following year (Field Prep Irrigation). The Field Prep Irrigation acres would be within the rights' currently authorized permissible place of use (PPU), but would be in addition to acres irrigated to produce crops during an irrigation season. This would be after crops are harvested but before irrigation season ends (10/31 – 11/15). Water will be used at the current place of use approximately 4 miles south east of Glens Ferry, south of I-84 and west of the Snake River.

Rockin S Ranch Inc. of PO Box 938, Glens Ferry, ID 83623 filed Application No. **78438** to transfer six water rights with 1912 to 1980 priority dates from the Snake River totaling 2.82 cfs. The purpose of the transfer is to add a second point of diversion from the river and to consolidate all six rights on 141 acres located on the east and south sides of the area known as Three Island Crossing.

For additional information concerning the property location, contact Western Region office at (208) 334-2190; or see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp for a full description of the right(s) and the proposed transfer. Protests may be submitted based on the criteria of Idaho Code § 42-222. Any protest against the proposed change must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 9/23/2013.
