Subject: RE: extension for 11-7342

Becky:

The Department of Water Resources grants an additional 30 days for you to provide information in connection with Permit 11-7342. The Department's responsibility when issuing a water right license is to ensure water was used beneficially in accordance with the permit by the end of the development period, which was April 1, 1989, for this permit. The Department also has to ensure that the elements of the water use authorized by the license do not exceed the use established by the permit holder. The information that would be most useful to the Department at this time is a credible depiction of the area that was actually irrigated and a credible description of the amount of water actually diverted for irrigation purposes.

Subject: extension for 11-7342

Dear Shelley:

Thank you for taking the time to discuss this permit and withdrawal of preliminary license for water right 11-7342. I appreciate your input and suggestions on how to proceed in obtaining additional information to assist the department in its review. I have discussed this matter with attorney Scott Smith. We are hereby requesting a 30-day extension of time (from tomorrow's due date of 10-17-08) to submit additional information to the department. We are making progress; however, the extra time will give us the opportunity to fully submit the necessary information and data concerning the development of this permit, among other things.

Thank you for your courtesy and cooperation and willingness to work with us.

Sincerely,

Becky Harvey
