From: Jeff Peppersack

Re: Phone Call from Don Gilbert

Don Gilbert called to discuss the information necessary for the Department to license this permit. I went through the documents in the file with him and indicated that we are awaiting information from the permit holder to support irrigation use. We discussed the need for detailed information regarding the water use during the development period of the permit ending in 1989. Don indicated he would try to get an affidavit from someone in the area that could provide the information.
