Bruce,

I received your Fax with Mr. Allen's letter. I'll respond to Mr. Allen's letter through you to ensure a prompt reply in this matter. I have spoken to the Director and informed him of Mr. Allen's letter. As expressed in his letter earlier this week, this action is necessary to eliminate the source of future confrontations. It was our hope that resolution of the point of diversion through a transfer would have been accomplished last year. Further delays only increase the potential for problems. The decision to rescind the conditional authorization to divert water from the upper diversion on Rock Creek will stand. Mr. Allen will need to adhere to the point of diversion currently authorized under his decreed right.

Jeff Peppersack
Chief, Water Allocation Bureau

Emalee, please place a copy of this correspondence, including Mr. Allen's letter, in the water right file for 65-3111X
