6. General Information:

- a. Who owns the water right to be changed? Jay Pearson/Joel Andersen 1.52
- b. Describe the arrangement allowing use of the right. Jay Pearson will set aside 1.74 cfs for use on other lands down the canal system to alfalfa 3rd cutting.
- c. Describe the affect on the land now irrigated if the change is approved pursuant to this application:
Most land under this water right was not irrigated and put into preventive plant due to a lack of surface water
- d. Has the water right sought to be transferred been used this year? ☒ Yes ☐ No If yes, explain. Both owners of this water right have used it when surface water was inadequate or unavailable
- e. Absent the changes, how would the right be used for the remainder of the year? The right would not likely be used. Flood irrigation practice is depended on additional surface water volumn flows to irrigate.
- f. Describe other water rights used for the same purpose. Don't have an answer for this question
- g. Remarks: Due to the drought, I'm trying to finish my crops, if and when my surface water become's unavailabe.

I hereby assume all risk in accordance with Section 42-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.
