Re: Revised Irrigation Place of Use for Lezamiz PPU

Dear Mr. Sullivan,

Thank you for sending a map showing an anticipated change to the location of the 155 acres authorized to be irrigated under water rights 34-230, 34-231, 34-232, 34-2275, 34-2350, and 34-2418. A permissible place of use (PPU) was created for those water rights under Transfer No. 76104, which was approved in January 2010. As part of the transfer approval process, specific conditions were placed on all of the water rights associated with the PPU. One of the conditions placed on all of the water rights stated:

Before changing the 155 acres to be irrigated within the 490.9 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.

Because the 2010 irrigation season is already well underway, the place of use change shown in your map will be implemented before the 2011 irrigation season. We will likely update the authorized place of use in January or February of next year. If you happen to still have the shapefile for the new place of use, we would appreciate an electronic copy. Otherwise, we will use our best judgment to recreate the place of use depicted on the map. Feel free to contact me if you have any questions.

Sincerely,

James Cefalo
Water Resources Program Manager

Re: John Lezamiz Family LTD Partnership Water Rights

Dear Mr. Carlson:

In accordance with conditions set forth by IDWR for water rights 34-230, 34-232, 34-231, 34-2275, 34-2418 and 34-2350 I am notifying you concerning the location of 155 irrigated acres under these water rights for the 2010 growing season. The change is shown in the attached aerial map. It is desired to only irrigate acres that can be beneficially used under the operation of pivot irrigation systems. A total of 155 acres will continue to be irrigated within the 490.9 acre PPU. A new 29 acre wiper pivot will be installed in the Fall of 2009 and will begin operation in the Spring of 2010.

Sincerely,

Greg Sullivan, M.S., E.I.T.
