RE: Water Appropriation Permit 74-7304

Notice of Intent to Void Permit

Dear Permit Holders:

In 1990 IDWR issued permit 74-7304 authorizing the development of a right to divert 1.82 cfs of water from Canyon Creek, within NWSW, SWSW, & SESW of Section 28, SESE of Section 29, NENE & NESE of Section 32, & NWNE of Section 33, Township 21 North, Range 22 East, B.M., for irrigation use. On May 30, 2013, IDWR requested additional information from you in order to complete the licensing process.

At this time, IDWR has not received any follow-up information or contact regarding this permit.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water from Canyon Creek within the development period authorized by your permit a license cannot be issued. Once the development period authorized by your permit expires, your permit cannot be retained to cover future development of the resource.

If you believe a water right license should be issued to you, please supply information requested in the letter dated 05/30/2013 to demonstrate that you established a beneficial use of water in accordance with Permit 74-7304. If I do not receive the requested information from you within thirty (30) days, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under permit 74-7304, you can shorten the voiding process by completing the enclosed relinquishment form and returning it to IDWR.

If you have any questions, please contact me at 208-287-4800.

Respectfully,

Danielle Favreau
