RE: Notice of Change in Water Right Ownership for Todd Morris
(27-4152A, 27-7390, 27-7289A, 27-14012, 27-10093, 27-7339, and 27-10094)

Dear Mr. Baker:

In June 2009, your firm filed a Notice of Change in Water Right Ownership ("ownership change") on behalf of Todd Morris for the seven water rights listed above. We have recently begun to review the oldest pending ownership changes in our database. The ownership change for Todd Morris is one of the oldest pending files on record. I regret to report that, despite our best efforts, we have not been able to locate the original ownership change. The ownership change file was never scanned into our digital repository. Without the original form, and the associated deeds, we cannot complete the ownership change.

Could you review your files for Todd Morris. If you have a copy of the ownership change as filed, would you please forward it to our office. We will process the ownership change as soon as it is received. If we do not receive a response to this letter by December 1, 2011, we will refund the original filing fee (\$175) to your office. A copy of the receipt (E035155) is enclosed.

Please be aware, as I reviewed the water rights listed on the ownership change, there were some rights that appear to be in error. Water right 27-4152 (no "A" portion) is held by the City of Blackfoot and is located on city property. Water right 27-7289 (no "A" portion) is in the name of YOUNGHANS. None of the taxlot parcels in the area are in the name of Todd Morris. 27-14012 is not a valid water right number. Finally, water rights 27-10094, 27-7339, and 27-7390 are associated with taxlot parcels that are still in the name of Gordon Morris. It may be worthwhile for you to address these questions prior to resubmitting the ownership change. Again, I apologize for the missing file. Thank you for your assistance in reproducing the ownership change. Feel free to contact me if you have any questions.

Sincerely,

James Cefalo
Water Resources Program Manager
