Re: Permit No. 96-9430

Dear Ms. Block,

I am sorry to have missed signing & dating my Request for Extension of Time. When I read the signature line, I thought that was for signature of "other than permit holder", my mistake. I am signing it & filling in the current date. *Enclosed*

After consideration of the extension of time as per your letter's last two paragraphs, (copy attached) I think the simplest thing is to request the maximum time now. I understand that I can request 5 more years now OR after extending 1 year then another 5 years for a 6 yr. total. I do not need 6 years so I think the best thing for me to do is to request 5 years now. If this fits with your explanation of the 5 yr. extension after the original permit time period then this is what I want to request.

I am aware that this is one year less than if I did a one year extension (to end of first 5 yr. permit period) & then a 5 year extension. 5 years from now should be more than enough time. I tried to call a couple of times but missed you. If I have misunderstood this, please call at 208-263-0895 or e-mail wallace@sandpoint.net

This project has been permitted (& re-permitted) for a long time and needs to get finished. I do thank you for your explanation of permit & extension time(s) and hope I have understood it correctly.

Sincerely,

R. Lloyd Wallace

Holder of Permit 96-9430
