Blake,

Thanks for asking! I guess I was so intent on getting the rest of it right that I neglected the stockwater. The stockwater should be described within the entire place of use. Can we make that change without initials on the applications?

Roxanne

Hi Roxanne,

I am finishing up the Big Creek Ranch transfer and have a question about the stockwater portion to water right 73-42. The application does not have a place of use land list for the stockwater portion to water right 73-42. Is your intention to change the place of use to the stockwater portion or does the place of use remain the same? If changing is the stockwater place of use the same as the irrigation place of use (952.1 acre irrigation pou)?

Thanks,  
Blake
