RECOMMENDATION OF WATERMASTER

Application No: 78405
Water Right No: 36-2453A
Applicant Name: Baker, Darrell James

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application under the following terms:

Completed Water District 130 Measurement Plan signed by Jeremy Smith must be received prior to final approval

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☐ Additional comment:

These rights were subject to multiple water supply bank leases and rentals during all or part of 2013. All but two rights (36-2467 and 36-2668) have been released from the bank. Rental of portions of these rights does not expire until Dec 31, 2013 and the lease expiration date has been modified to match this date. However, in order to facilitate approval of the transfer prior to release of the rights, applicant has rented an additional 15.6 acres under separate rights to add into the place of use at the Goodnight farm for the remainder of the year in order that the sale of 15.6 acres to Smith from that farm may be finalized. Because the various spatial shapes (water right, lease, rental, sale, CREP, etc) do not exactly align, it was easier to process the make-up rental acres as a non-specific place of use within the existing pou. Total acres can be accounted for, and when the rented portions of 2467 and 2668 expire the modified place of use of 364.4 acres will be fully reconciled. All remaining WSB leases or rentals associated with the Goodnight farm will expire or be cancelled at the end of 2013.

Dated: August 8, 2013

Water District 130

Cindy J Yenter, Watermaster
