I will see what we can do about prioritizing this.

Thanks,
c

Roxanne:

I checked scanned docs & saw the exam report in SO Vault file. This is one of those backlogged exams to license. SO is making that category a priority this year from what I have heard. If you need more detailed information about licensing this one, would be good to check with Craig Saxton.

Steve

p.s. fyi ... from backfile ... this is the permit that resulted from policy change for possible community well appl approval in GWMA's, led to amended Appl Memo #47 covering that topic. There was a lot of confusion in 1992 when this appl was processed, lots of miscommunication until finally things got cleared up. I remember this one big time!!

Steve,

This permit was issued to Mellen Water District near Mountain Home. It looks like Dan Tomich completed a field exam in 1998, but I don't see where a license was issued. Can you tell me the status of the permit; we are working with these folks to upgrade/repair their pumping facilities.

Thanks!
